## Introduction

This resource directory is intended for use by individuals seeking services and as a referral tool for service providers. Included in this directory is a list of organizations funded by the New York State Department of Health AIDS Institute to provide HIV/AIDS services. Some organizations may provide additional HIV/AIDS services through other funding sources.

This directory is arranged by region, with each organization listed under the region it serves and then by the service(s) it provides.

**Consumer Services** - In these sections of the directory, services are listed by type of service and are intended for use by individuals and/or their advocates who are looking for a particular service or services.

**Provider Resources** - In these sections of the directory, agencies providing multiple services (such as Community Service Programs and Multiple Service Agencies) are identified as well as providers of technical assistance; education and training; and other services specifically helpful to service providers.

Organizations providing more than one service are listed under each service. To the extent possible, we have footnoted any special criteria for a service. **However, it is recommended that people using this directory call agencies directly for more detailed information about the services offered.** In some instances, conditions may need to be met to establish eligibility for services. For example:

- Services may only be available to HIV positive persons or persons living with AIDS
- Services may only be available to families
- Services may be available based on financial need

Please note that organizations listed in a specific location may also provide services to people who live in neighboring communities and boroughs. **Please call organizations directly for complete information about services.**

## **Services Provided in the Bronx for Consumers**

## **AIDS Adult Day Health Care Programs**

*Provision of a comprehensive range of services in a community-based, non-institutional setting to individuals living with HIV/AIDS who are poor, homeless, psychiatrically/mentally impaired, chemically dependent, formerly incarcerated and otherwise disenfranchised from the health care system. General medical care, including treatment adherence support, nursing care, rehabilitative services, nutritional services, case management, HIV risk reduction, substance abuse and mental health services are among the services provided.*

**Agency: HELP/PSI**

1545 Inwood Ave  
Bronx, NY 10452  
(718) 299-5500

**Agency: Promesa Adult Day Health Care Program**

915 Westchester Ave  
Bronx, NY 10459  
(718) 466-3550

## **AIDS Home Care Programs**

*Responsible for case management/coordination services which address the medical, social, mental health, and environmental needs of the client, including nursing services, home health aide services, medical supplies, equipment and appliances, and other therapeutic and related services which may include but are not limited to physical and occupational therapy, speech pathology, nutritional services, medical social services, personal care services, homemaker services, and housekeeping services.*

**Agency: Kingsbridge Heights LTHHCP**

295 W 231st St  
Bronx, NY 10463  
(718) 796-8165

**Agency: Montefiore Home Health Agency**

1 Fordham Plz Suite 1100  
Bronx, NY 10458  
(718) 405-4400

## **AIDS Nursing Facilities**

*Special services are provided including medical services by a physician who has experience in the care and clinical management of persons with AIDS; sub-specialty physician services; nursing services supervised by a registered professional nurse with experience in the care and management of persons with AIDS; substance abuse services; HIV risk/harm reduction education; comprehensive case management; and pastoral care.*

**Agency: Bronx-Lebanon Special Care Center**

169th & Fulton Ave  
Bronx, NY 10456  
(718) 579-7000

1401 University Pl 5th Fl  
Bronx, NY 10452  
(718) 681-8700

**Agency: Promesa Special Projects Corp, Inc.**

308 East 175th St  
Bronx, NY 10457  
(718) 960-7600

**Agency: St. Barnabas Nursing Home**

2175 Quarry Rd  
Bronx, NY 10457  
(718) 960-3910

**Agency: Terrace Health Care Center**

2678 Kingsbridge Terr  
Bronx, NY 10463  
(718) 796-5800

## Case Management

*A range of client-centered services that link clients with any and all needed services, such as health care, dental, mental health, substance abuse services, entitlements, legal services, education, transportation, basic living needs, housing, and other supportive services. Case management activities include initial comprehensive assessment of the client's needs and support systems; development of a comprehensive, individualized service plan; and periodic re-evaluation and revision of the plan. May include client-specific advocacy and/or review of utilization of services.*

## **HIV Counseling and Testing**

*This activity includes a one-on-one session with a counselor who will help the client to understand their risk for HIV, obtain their consent to collect a specimen (blood or oral fluid) for HIV antibody testing, and deliver the test results with an explanation of its implications. Counseling may include developing a risk reduction plan; assisting the client to develop skills to negotiate safer sex and reduce drug use risk taking behaviors; and referring the client to needed services. For those who have an HIV positive test result, the counselor will assist in linking the client to medical care and discuss a plan to notify partners of their possible exposure.*

## Medical Care- Designated AIDS Centers

*Designated AIDS Centers (DACs) are State-certified, hospital-based programs that serve as the center of a continuum of hospital and community-based case management for people with HIV and AIDS. DACs with pediatric and obstetrical departments also provide specialized HIV care to infants, children and pregnant women. HIV-specific care standards developed for and used by DACs are intended to ensure uniformly high quality care for HIV patients.*

## **Partner Notification Assistance**

*Partner notification assistance is offered to HIV-infected clients to help inform past and present sexual and needle-sharing partners of their exposure to HIV. Services include discussing with infected individuals the different options available for partner notification. Clients are assisted with developing notification skills to self-notify partners, if desired. Public health staff is available through the Partner Assistance Program (PNAP) in all areas outside of New York City and the Contact Notification Assistance Program (CNAP) in NYC to provide partner assistance counseling and referral.*

Bronx, NY 10459  
(718) 893-6555

*Eligibility Criteria May Apply*

## Syringe Exchange

*This State funded HIV and hepatitis C prevention initiative offers comprehensive harm reduction services including syringe exchange. Syringe exchange programs (SEPs) also provide outreach; HIV and hepatitis C prevention education; individual and group counseling; mental health services; distribution and demonstration of male and female condoms, dental dams and bleach kits; HIV counseling and testing; and referrals to medical, social services and substance use treatment. The SEPs help participants reduce the harm associated with injection drug use through engagement in behavioral intervention sessions, skills building, recovery readiness activities, and the provision of harm reduction supplies (new syringes, cotton, alcohol pads, and condoms). Used syringes are exchanged for new sterile ones to prevent HIV/hep C transmission in participants who are unable or unwilling to stop injecting and/or enter drug treatment.*

## Provider Resources in the Bronx

## Community Service Programs

*These programs provide a comprehensive array of HIV/AIDS services, specifically prevention and support services for individuals affected and infected by HIV/AIDS within a clearly defined geographic area. They also provide training and technical assistance to health and human service providers to assist them in the development of their own HIV/AIDS prevention strategies.*

**Agency: Bronx AIDS Services, Inc.**

540 East Fordham Rd  
Bronx, NY 10458  
(718) 295-5605

## Education and Training for Clinicians

*To enhance the quality of care offered by community-based HIV care providers, this initiative increases clinical skills through continuous education that focuses on state-of-the-art clinical practice information. In addition to offering continuous education at their sites, the initiative intends to solidify referral relationships between community-based providers (managed care plans, community health centers, substance abuse treatment sites, community hospitals, residential health care facilities and other diagnostic and treatment centers) and tertiary care centers. A directory of clinical education providers in the state is available at [www.hivguidelines.org](http://www.hivguidelines.org).*

**Agency: Bronx-Lebanon Hospital Center**

**Site: Bronx-Lebanon Hospital**

1276 Fulton Ave 5th Fl  
Bronx, NY 10456  
(718) 579-7575

## Enrollment into HIV Uninsured Care

*Programs performing targeted outreach and education activities that promote access to health care services in the community. The principle purpose of targeted outreach activities is to identify people with HIV disease so that they may become aware of and may be enrolled in care and treatment services.*

**Agency: Citizen's Advice Bureau**

**Agency: Community Healthcare Network**

**Site: CHN Bronx Center**

975 Westchester Ave  
Bronx, NY 10459  
(212) 366-4500

## Multiple Service Agencies

*Multiple Service Agencies (MSAs) serve communities of color through minority community-based organizations that provide prevention and support services to at-risk and infected persons who are African-American, Caribbean, Hispanic, Native American, Asian or Pacific Islander, people who identify as transgender and other populations that might not readily access the traditional service delivery/care system. Services provided include outreach at multiple locations such as homeless shelters, youth and faith-based organizations, and on the street; HIV prevention education and advanced risk reduction; client services, including case management and other support services; and program development, allowing MSA staff to receive on-going HIV training, and supporting quality assurance, material development, fundraising and program planning.*

Bronx, NY 10457  
(718) 901-4871

## **Regional Ryan White Title II Care Networks**

*Sixteen regional/neighborhood HIV care networks conduct HIV service planning and coordination. The networks are local associations of health care providers, community-based organizations, affected persons and persons living with HIV/AIDS who have a shared concern for achieving a comprehensive continuum of health and supportive services in a specific geographic area. The networks are responsible for defining the local epidemic and resources; planning and coordinating services; identifying service gaps and developing strategies to address those gaps; and raising public awareness about HIV/AIDS services, treatment and policy.*

**Agency: Montefiore Medical Center**

**Site:** Montefiore Medical Center/Gold Zone

111 East 210th St 1st Fl

Bronx, NY 10467

(718) 920-2199

## Services Provided in Brooklyn for Consumers

## **AIDS Adult Day Health Care Programs**

*Provision of a comprehensive range of services in a community-based, non-institutional setting to individuals living with HIV/AIDS who are poor, homeless, psychiatrically/mentally impaired, chemically dependent, formerly incarcerated and otherwise disenfranchised from the health care system. General medical care, including treatment adherence support, nursing care, rehabilitative services, nutritional services, case management, HIV risk reduction, substance abuse and mental health services are among the services provided.*

(718) 921-7820

## **AIDS Nursing Facilities**

*Special services are provided including medical services by a physician who has experience in the care and clinical management of persons with AIDS; sub-specialty physician services; nursing services supervised by a registered professional nurse with experience in the care and management of persons with AIDS; substance abuse services; HIV risk/harm reduction education; comprehensive case management; and pastoral care.*

**Agency: Schachne Institute for Nursing Rehabilitation**

650 Amboy St  
Brooklyn, NY 11212  
(718) 240-6921

## Case Management

*A range of client-centered services that link clients with any and all needed services, such as health care, dental, mental health, substance abuse services, entitlements, legal services, education, transportation, basic living needs, housing, and other supportive services. Case management activities include initial comprehensive assessment of the client's needs and support systems; development of a comprehensive, individualized service plan; and periodic re-evaluation and revision of the plan. May include client-specific advocacy and/or review of utilization of services.*

## **HIV Counseling and Testing**

*This activity includes a one-on-one session with a counselor who will help the client to understand their risk for HIV, obtain their consent to collect a specimen (blood or oral fluid) for HIV antibody testing, and deliver the test results with an explanation of its implications. Counseling may include developing a risk reduction plan; assisting the client to develop skills to negotiate safer sex and reduce drug use risk taking behaviors; and referring the client to needed services. For those who have an HIV positive test result, the counselor will assist in linking the client to medical care and discuss a plan to notify partners of their possible exposure.*

## **Medical Care- Designated AIDS Centers**

*Designated AIDS Centers (DACs) are State-certified, hospital-based programs that serve as the center of a continuum of hospital and community-based case management for people with HIV and AIDS. DACs with pediatric and obstetrical departments also provide specialized HIV care to infants, children and pregnant women. HIV-specific care standards developed for and used by DACs are intended to ensure uniformly high quality care for HIV patients.*

## **Partner Notification Assistance**

*Partner notification assistance is offered to HIV-infected clients to help inform past and present sexual and needle-sharing partners of their exposure to HIV. Services include discussing with infected individuals the different options available for partner notification. Clients are assisted with developing notification skills to self-notify partners, if desired. Public health staff is available through the Partner Assistance Program (PNAP) in all areas outside of New York City and the Contact Notification Assistance Program (CNAP) in NYC to provide partner assistance counseling and referral.*

## Syringe Exchange

*This State funded HIV and hepatitis C prevention initiative offers comprehensive harm reduction services including syringe exchange. Syringe exchange programs (SEPs) also provide outreach; HIV and hepatitis C prevention education; individual and group counseling; mental health services; distribution and demonstration of male and female condoms, dental dams and bleach kits; HIV counseling and testing; and referrals to medical, social services and substance use treatment. The SEPs help participants reduce the harm associated with injection drug use through engagement in behavioral intervention sessions, skills building, recovery readiness activities, and the provision of harm reduction supplies (new syringes, cotton, alcohol pads, and condoms). Used syringes are exchanged for new sterile ones to prevent HIV/hep C transmission in participants who are unable or unwilling to stop injecting and/or enter drug treatment.*

# Provider Resources in Brooklyn

## Community Development Initiative

*These programs develop and implement strategies designed to educate communities of color about HIV and establish networks to effect a community-based response to the HIV epidemic. The programs closely monitor policies on the national, state, and local level that may impact people who are infected or at risk. Furthermore, this information is shared with policy makers and acts as a source of information for their communities.*

**Agency: Haitian Centers Council, Inc.**

10 St Pauls Pl 5th Fl Wing B Rm 524  
Brooklyn, NY 11201  
(718) 940-5200

**Agency: J-CAP Foundation, Inc.**

2630 Atlantic Ave  
Brooklyn, NY 11207  
(718) 712-1100

## Community Service Programs

*These programs provide a comprehensive array of HIV/AIDS services, specifically prevention and support services for individuals affected and infected by HIV/AIDS within a clearly defined geographic area. They also provide training and technical assistance to health and human service providers to assist them in the development of their own HIV/AIDS prevention strategies.*

**Agency: Brooklyn AIDS Task Force, Inc.**

502 Bergen St  
Brooklyn, NY 11217  
(718) 622-2910

## Education and Training for Clinicians

*To enhance the quality of care offered by community-based HIV care providers, this initiative increases clinical skills through continuous education that focuses on state-of-the-art clinical practice information. In addition to offering continuous education at their sites, the initiative intends to solidify referral relationships between community-based providers (managed care plans, community health centers, substance abuse treatment sites, community hospitals, residential health care facilities and other diagnostic and treatment centers) and tertiary care centers. A directory of clinical education providers in the state is available at [www.hivguidelines.org](http://www.hivguidelines.org).*

**Agency: Research Foundation of SUNY**

**Site: Brooklyn**

451 Clarkson Ave  
Brooklyn, NY 11203  
(718) 270-3825

## **Enrollment into HIV Uninsured Care**

*Programs performing targeted outreach and education activities that promote access to health care services in the community. The principle purpose of targeted outreach activities is to identify people with HIV disease so that they may become aware of and may be enrolled in care and treatment services.*

**Agency:** Haitian Women's Program

**Site:** Diaspora Community Services

464 Bergen St #466  
Brooklyn, NY 11217  
(718) 399-0200

## Multiple Service Agencies

*Multiple Service Agencies (MSAs) serve communities of color through minority community-based organizations that provide prevention and support services to at-risk and infected persons who are African-American, Caribbean, Hispanic, Native American, Asian or Pacific Islander, people who identify as transgender and other populations that might not readily access the traditional service delivery/care system. Services provided include outreach at multiple locations such as homeless shelters, youth and faith-based organizations, and on the street; HIV prevention education and advanced risk reduction; client services, including case management and other support services; and program development, allowing MSA staff to receive on-going HIV training, and supporting quality assurance, material development, fundraising and program planning.*

85 South Oxford St  
Brooklyn, NY 11217  
(718) 596-0342

## **Regional Ryan White Title II Care Networks**

*Sixteen regional/neighborhood HIV care networks conduct HIV service planning and coordination. The networks are local associations of health care providers, community-based organizations, affected persons and persons living with HIV/AIDS who have a shared concern for achieving a comprehensive continuum of health and supportive services in a specific geographic area. The networks are responsible for defining the local epidemic and resources; planning and coordinating services; identifying service gaps and developing strategies to address those gaps; and raising public awareness about HIV/AIDS services, treatment and policy.*

**Agency: Church Avenue Merchants Block Association, Inc.**

19 Winthrop St  
Brooklyn, NY 11225  
(718) 462-8654

## **HIV Counseling and Testing**

*This activity includes a one-on-one session with a counselor who will help the client to understand their risk for HIV, obtain their consent to collect a specimen (blood or oral fluid) for HIV antibody testing, and deliver the test results with an explanation of its implications. Counseling may include developing a risk reduction plan; assisting the client to develop skills to negotiate safer sex and reduce drug use risk taking behaviors; and referring the client to needed services. For those who have an HIV positive test result, the counselor will assist in linking the client to medical care and discuss a plan to notify partners of their possible exposure.*

## **Medical Care- Designated AIDS Centers**

*Designated AIDS Centers (DACs) are State-certified, hospital-based programs that serve as the center of a continuum of hospital and community-based case management for people with HIV and AIDS. DACs with pediatric and obstetrical departments also provide specialized HIV care to infants, children and pregnant women. HIV-specific care standards developed for and used by DACs are intended to ensure uniformly high quality care for HIV patients.*

## **Mental Health**

*Mental health services are designed to identify and assess changes in a client's mental health status and to provide services to help individuals cope with the psychological effects of living with HIV. Services include psychiatric/psychological assessment; psychological and psychiatric diagnosis, treatment and counseling; and are provided by mental health professionals who are licensed/certified in New York State.*

## **Partner Notification Assistance**

*Partner notification assistance is offered to HIV-infected clients to help inform past and present sexual and needle-sharing partners of their exposure to HIV. Services include discussing with infected individuals the different options available for partner notification. Clients are assisted with developing notification skills to self-notify partners, if desired. Public health staff is available through the Partner Assistance Program (PNAP) in all areas outside of New York City and the Contact Notification Assistance Program (CNAP) in NYC to provide partner assistance counseling and referral.*

## Syringe Exchange

*This State funded HIV and hepatitis C prevention initiative offers comprehensive harm reduction services including syringe exchange. Syringe exchange programs (SEPs) also provide outreach; HIV and hepatitis C prevention education; individual and group counseling; mental health services; distribution and demonstration of male and female condoms, dental dams and bleach kits; HIV counseling and testing; and referrals to medical, social services and substance use treatment. The SEPs help participants reduce the harm associated with injection drug use through engagement in behavioral intervention sessions, skills building, recovery readiness activities, and the provision of harm reduction supplies (new syringes, cotton, alcohol pads, and condoms). Used syringes are exchanged for new sterile ones to prevent HIV/hep C transmission in participants who are unable or unwilling to stop injecting and/or enter drug treatment.*

## Provider Resources in Manhattan

## **Community Development Initiative**

*These programs develop and implement strategies designed to educate communities of color about HIV and establish networks to effect a community-based response to the HIV epidemic. The programs closely monitor policies on the national, state, and local level that may impact people who are infected or at risk. Furthermore, this information is shared with policy makers and acts as a source of information for their communities.*

**Agency: American Indian Community House, Inc.**

708 Broadway 8th Fl  
New York, NY 10003  
(212) 598-0100

105 East 22nd St Suite 711  
New York, NY 10010  
(212) 614-0023

## Community Service Programs

*These programs provide a comprehensive array of HIV/AIDS services, specifically prevention and support services for individuals affected and infected by HIV/AIDS within a clearly defined geographic area. They also provide training and technical assistance to health and human service providers to assist them in the development of their own HIV/AIDS prevention strategies.*

**Agency: AIDS Service Center of Lower Manhattan, Inc.**

(212) 807-6655

**Agency: Harlem Director's Group, Inc.**

271 West 125th St Suite 215  
New York, NY 10027  
(212) 531-0049

## Education and Training for Clinicians

*To enhance the quality of care offered by community-based HIV care providers, this initiative increases clinical skills through continuous education that focuses on state-of-the-art clinical practice information. In addition to offering continuous education at their sites, the initiative intends to solidify referral relationships between community-based providers (managed care plans, community health centers, substance abuse treatment sites, community hospitals, residential health care facilities and other diagnostic and treatment centers) and tertiary care centers. A directory of clinical education providers in the state is available at [www.hivguidelines.org](http://www.hivguidelines.org).*

**Agency: Cicatelli Associates, Inc.**

505 8th Ave Suite 1601  
New York, NY 10018  
(212) 594-7741

**Agency: Saint Vincent's Catholic Medical Centers of New York**

170 West 12th St  
New York, NY 10011  
(212) 604-2980

## **Education and Training for Non-Physician Health and Human Service Providers**

*These programs support the effectiveness of non-clinical health and human service providers in delivering HIV/AIDS related services through trainings on HIV policy issues, counseling and testing, community education, outreach, case management, behavioral interventions, viral hepatitis, case management, STD/HIV connection, and harm reduction. A menu of trainings addressing current and emerging HIV issues is offered through a network of training organizations across the state and is available at <http://www.health.state.ny.us/diseases/aids/training/index.htm>.*

**Agency: Cicatelli Associates, Inc.**

505 8th Ave Suite 1601  
New York, NY 10018  
(212) 594-7741  
*Serves all five boroughs of NYC*

## Multiple Service Agencies

*Multiple Service Agencies (MSAs) serve communities of color through minority community-based organizations that provide prevention and support services to at-risk and infected persons who are African-American, Caribbean, Hispanic, Native American, Asian or Pacific Islander, people who identify as transgender and other populations that might not readily access the traditional service delivery/care system. Services provided include outreach at multiple locations such as homeless shelters, youth and faith-based organizations, and on the street; HIV prevention education and advanced risk reduction; client services, including case management and other support services; and program development, allowing MSA staff to receive on-going HIV training, and supporting quality assurance, material development, fundraising and program planning.*

**Regional Ryan White Title II Care Networks**

*Sixteen regional/neighborhood HIV care networks conduct HIV service planning and coordination. The networks are local associations of health care providers, community-based organizations, affected persons and persons living with HIV/AIDS who have a shared concern for achieving a comprehensive continuum of health and supportive services in a specific geographic area. The networks are responsible for defining the local epidemic and resources; planning and coordinating services; identifying service gaps and developing strategies to address those gaps; and raising public awareness about HIV/AIDS services, treatment and policy.*

## Services Provided in Queens for Consumers

## **AIDS Adult Day Health Care Programs**

*Provision of a comprehensive range of services in a community-based, non-institutional setting to individuals living with HIV/AIDS who are poor, homeless, psychiatrically/mentally impaired, chemically dependent, formerly incarcerated and otherwise disenfranchised from the health care system. General medical care, including treatment adherence support, nursing care, rehabilitative services, nutritional services, case management, HIV risk reduction, substance abuse and mental health services are among the services provided.*

**Agency: HELP/Project Samaritan**

143-10 Archer Ave  
Jamaica, NY 11435  
(718) 299-5500

## **AIDS Home Care Programs**

*Responsible for case management/coordination services which address the medical, social, mental health, and environmental needs of the client, including nursing services, home health aide services, medical supplies, equipment and appliances, and other therapeutic and related services which may include but are not limited to physical and occupational therapy, speech pathology, nutritional services, medical social services, personal care services, homemaker services, and housekeeping services.*

**Agency: St. Mary's Hospital for Children, Inc.**

6 Ohio Dr  
New Hyde Pk, NY 11042  
(718) 281-8600

## Case Management

*A range of client-centered services that link clients with any and all needed services, such as health care, dental, mental health, substance abuse services, entitlements, legal services, education, transportation, basic living needs, housing, and other supportive services. Case management activities include initial comprehensive assessment of the client's needs and support systems; development of a comprehensive, individualized service plan; and periodic re-evaluation and revision of the plan. May include client-specific advocacy and/or review of utilization of services.*

## **Counseling - Prevention**

*Interactive, structured small group or individual HIV prevention services that have a skilled facilitator and a set format. Skills building is a major element of this type of service. Individual counseling includes assessment of the client's risk, assisting clients to understand their risk for HIV, developing a risk reduction plan and assisting the client in developing skills to negotiate safer sex and drug use behavior.*

## **HIV Counseling and Testing**

*This activity includes a one-on-one session with a counselor who will help the client to understand their risk for HIV, obtain their consent to collect a specimen (blood or oral fluid) for HIV antibody testing, and deliver the test results with an explanation of its implications. Counseling may include developing a risk reduction plan; assisting the client to develop skills to negotiate safer sex and reduce drug use risk taking behaviors; and referring the client to needed services. For those who have an HIV positive test result, the counselor will assist in linking the client to medical care and discuss a plan to notify partners of their possible exposure.*

## **Medical Care- Designated AIDS Centers**

*Designated AIDS Centers (DACs) are State-certified, hospital-based programs that serve as the center of a continuum of hospital and community-based case management for people with HIV and AIDS. DACs with pediatric and obstetrical departments also provide specialized HIV care to infants, children and pregnant women. HIV-specific care standards developed for and used by DACs are intended to ensure uniformly high quality care for HIV patients.*

## **Partner Notification Assistance**

*Partner notification assistance is offered to HIV-infected clients to help inform past and present sexual and needle-sharing partners of their exposure to HIV. Services include discussing with infected individuals the different options available for partner notification. Clients are assisted with developing notification skills to self-notify partners, if desired. Public health staff is available through the Partner Assistance Program (PNAP) in all areas outside of New York City and the Contact Notification Assistance Program (CNAP) in NYC to provide partner assistance counseling and referral.*

## **Syringe Exchange**

*This State funded HIV and hepatitis C prevention initiative offers comprehensive harm reduction services including syringe exchange. Syringe exchange programs (SEPs) also provide outreach; HIV and hepatitis C prevention education; individual and group counseling; mental health services; distribution and demonstration of male and female condoms, dental dams and bleach kits; HIV counseling and testing; and referrals to medical, social services and substance use treatment. The SEPs help participants reduce the harm associated with injection drug use through engagement in behavioral intervention sessions, skills building, recovery readiness activities, and the provision of harm reduction supplies (new syringes, cotton, alcohol pads, and condoms). Used syringes are exchanged for new sterile ones to prevent HIV/hep C transmission in participants who are unable or unwilling to stop injecting and/or enter drug treatment.*

**Agency: AIDS Center of Queens County, Inc.**

42-57 Hunter St 2nd Fl  
Long Island City, NY 11101  
(718) 472-9400

*Eligibility Criteria May Apply  
Limited Hours of Operation*

## **Transportation**

*Transportation services include car, taxi, or bus service; subway token disbursement; ticket reimbursement; and van ambulette transport.*

## Provider Resources in Queens

## Community Service Programs

*These programs provide a comprehensive array of HIV/AIDS services, specifically prevention and support services for individuals affected and infected by HIV/AIDS within a clearly defined geographic area. They also provide training and technical assistance to health and human service providers to assist them in the development of their own HIV/AIDS prevention strategies.*

**Agency: AIDS Center of Queens County, Inc.**

**Agency: AIDS Center of Queens County, Inc.**

97-45 Queens Blvd 12th Fl  
Rego Park, NY 11374  
(718) 896-2500

## Education and Training for Clinicians

*To enhance the quality of care offered by community-based HIV care providers, this initiative increases clinical skills through continuous education that focuses on state-of-the-art clinical practice information. In addition to offering continuous education at their sites, the initiative intends to solidify referral relationships between community-based providers (managed care plans, community health centers, substance abuse treatment sites, community hospitals, residential health care facilities and other diagnostic and treatment centers) and tertiary care centers. A directory of clinical education providers in the state is available at [www.hivguidelines.org](http://www.hivguidelines.org).*

**Agency: New York Hospital Medical Center of Queens**

56-45 Main St  
Flushing, NY 11355  
(718) 670-2643

## Enrollment into HIV Uninsured Care

*Programs performing targeted outreach and education activities that promote access to health care services in the community. The principle purpose of targeted outreach activities is to identify people with HIV disease so that they may become aware of and may be enrolled in care and treatment services.*

**Agency: AIDS Center of Queens County, Inc.**

97-45 Queens Blvd 12th Fl  
Rego Park, NY 11374  
(718) 896-2500

## Multiple Service Agencies

*Multiple Service Agencies (MSAs) serve communities of color through minority community-based organizations that provide prevention and support services to at-risk and infected persons who are African-American, Caribbean, Hispanic, Native American, Asian or Pacific Islander, people who identify as transgender and other populations that might not readily access the traditional service delivery/care system. Services provided include outreach at multiple locations such as homeless shelters, youth and faith-based organizations, and on the street; HIV prevention education and advanced risk reduction; client services, including case management and other support services; and program development, allowing MSA staff to receive on-going HIV training, and supporting quality assurance, material development, fundraising and program planning.*

Long Island City, NY 11101  
(718) 389-5100

## Regional Ryan White Title II Care Networks

*Sixteen regional/neighborhood HIV care networks conduct HIV service planning and coordination. The networks are local associations of health care providers, community-based organizations, affected persons and persons living with HIV/AIDS who have a shared concern for achieving a comprehensive continuum of health and supportive services in a specific geographic area. The networks are responsible for defining the local epidemic and resources; planning and coordinating services; identifying service gaps and developing strategies to address those gaps; and raising public awareness about HIV/AIDS services, treatment and policy.*

97-45 Queens Blvd  
Rego Park, NY 11374  
(718) 896-2500

## Services Provided in Staten Island for Consumers

## **AIDS Adult Day Health Care Programs**

*Provision of a comprehensive range of services in a community-based, non-institutional setting to individuals living with HIV/AIDS who are poor, homeless, psychiatrically/mentally impaired, chemically dependent, formerly incarcerated and otherwise disenfranchised from the health care system. General medical care, including treatment adherence support, nursing care, rehabilitative services, nutritional services, case management, HIV risk reduction, substance abuse and mental health services are among the services provided.*

**Agency: St. Elizabeth Ann's**

155 Vanderbilt Ave  
Staten Island, NY 10304  
(718) 876-1173

## **AIDS Home Care Programs**

*Responsible for case management/coordination services which address the medical, social, mental health, and environmental needs of the client, including nursing services, home health aide services, medical supplies, equipment and appliances, and other therapeutic and related services which may include but are not limited to physical and occupational therapy, speech pathology, nutritional services, medical social services, personal care services, homemaker services, and housekeeping services.*

**Agency: Visiting Nurses Association of Staten Island**

400 Lake Ave  
Staten Island, NY 10303  
(718) 720-2245

## **AIDS Nursing Facilities**

*Special services are provided including medical services by a physician who has experience in the care and clinical management of persons with AIDS; sub-specialty physician services; nursing services supervised by a registered professional nurse with experience in the care and management of persons with AIDS; substance abuse services; HIV risk/harm reduction education; comprehensive case management; and pastoral care.*

**Agency: St. Elizabeth Ann's Sisters of Charity Home**

91 Tompkins Ave  
Staten Island, NY 10304  
(718) 876-4331

## Case Management

*A range of client-centered services that link clients with any and all needed services, such as health care, dental, mental health, substance abuse services, entitlements, legal services, education, transportation, basic living needs, housing, and other supportive services. Case management activities include initial comprehensive assessment of the client's needs and support systems; development of a comprehensive, individualized service plan; and periodic re-evaluation and revision of the plan. May include client-specific advocacy and/or review of utilization of services.*

## HIV Counseling and Testing

*This activity includes a one-on-one session with a counselor who will help the client to understand their risk for HIV, obtain their consent to collect a specimen (blood or oral fluid) for HIV antibody testing, and deliver the test results with an explanation of its implications. Counseling may include developing a risk reduction plan; assisting the client to develop skills to negotiate safer sex and reduce drug use risk taking behaviors; and referring the client to needed services. For those who have an HIV positive test result, the counselor will assist in linking the client to medical care and discuss a plan to notify partners of their possible exposure.*

### **Medical Care- Designated AIDS Centers**

*Designated AIDS Centers (DACs) are State-certified, hospital-based programs that serve as the center of a continuum of hospital and community-based case management for people with HIV and AIDS. DACs with pediatric and obstetrical departments also provide specialized HIV care to infants, children and pregnant women. HIV-specific care standards developed for and used by DACs are intended to ensure uniformly high quality care for HIV patients.*

**Counseling - Prevention**

*Interactive, structured small group or individual HIV prevention services that have a skilled facilitator and a set format. Skills building is a major element of this type of service. Individual counseling includes assessment of the client's risk, assisting clients to understand their risk for HIV, developing a risk reduction plan and assisting the client in developing skills to negotiate safer sex and drug use behavior.*

Albany, NY 12209

(518) 262-4043

*Eligibility Criteria May Apply*

## **HIV Counseling and Testing**

*This activity includes a one-on-one session with a counselor who will help the client to understand their risk for HIV, obtain their consent to collect a specimen (blood or oral fluid) for HIV antibody testing, and deliver the test results with an explanation of its implications. Counseling may include developing a risk reduction plan; assisting the client to develop skills to negotiate safer sex and reduce drug use risk taking behaviors; and referring the client to needed services. For those who have an HIV positive test result, the counselor will assist in linking the client to medical care and discuss a plan to notify partners of their possible exposure.*

## **Medical Care- Designated AIDS Centers**

*Designated AIDS Centers (DACs) are State-certified, hospital-based programs that serve as the center of a continuum of hospital and community-based case management for people with HIV and AIDS. DACs with pediatric and obstetrical departments also provide specialized HIV care to infants, children and pregnant women. HIV-specific care standards developed for and used by DACs are intended to ensure uniformly high quality care for HIV patients.*

**Agency: Albany Medical Center**

## Provider Resources in the Northeast Region

## **Community Development Initiative**

*These programs develop and implement strategies designed to educate communities of color about HIV and establish networks to effect a community-based response to the HIV epidemic. The programs closely monitor policies on the national, state, and local level that may impact people who are infected or at risk. Furthermore, this information is shared with policy makers and acts as a source of information for their communities.*

**Agency: Centro Civico of Amsterdam, Inc.**

143-145 East Main St  
Amsterdam, NY 12010  
(518) 842-3762

## **Community Service Programs**

*These programs provide a comprehensive array of HIV/AIDS services, specifically prevention and support services for individuals affected and infected by HIV/AIDS within a clearly defined geographic area. They also provide training and technical assistance to health and human service providers to assist them in the development of their own HIV/AIDS prevention strategies.*

**Agency: AIDS Council of Northeastern New York, Inc.**

927 Broadway  
Albany, NY 12207  
(518) 434-4686

## **Education and Training for Clinicians**

*To enhance the quality of care offered by community-based HIV care providers, this initiative increases clinical skills through continuous education that focuses on state-of-the-art clinical practice information. In addition to offering continuous education at their sites, the initiative intends to solidify referral relationships between community-based providers (managed care plans, community health centers, substance abuse treatment sites, community hospitals, residential health care facilities and other diagnostic and treatment centers) and tertiary care centers. A directory of clinical education providers in the state is available at [www.hivguidelines.org](http://www.hivguidelines.org).*

**Agency: Albany Medical College**

47 New Scotland Ave MC-158  
Albany, NY 12208  
(518) 262-4045

**Agency: Upper Hudson Primary Care Consortium**

1 Broad St  
Glens Falls, NY 12801  
(518) 761-0300

## **Education and Training for Non-Physician Health and Human Service Providers**

*These programs support the effectiveness of non-clinical health and human service providers in delivering HIV/AIDS related services through trainings on HIV policy issues, counseling and testing, community education, outreach, case management, behavioral interventions, viral hepatitis, case management, STD/HIV connection, and harm reduction. A menu of trainings addressing current and emerging HIV issues is offered through a network of training organizations across the state and is available at <http://www.health.state.ny.us/diseases/aids/training/index.htm>.*

**Agency: Professional Development Program at SUNY Albany**

**Site:** Rockefeller College

135 Western Ave Richardson Hall Rm 315  
Albany, NY 12222  
(518) 591-8719

## **Multiple Service Agencies**

*Multiple Service Agencies (MSAs) serve communities of color through minority community-based organizations that provide prevention and support services to at-risk and infected persons who are African-American, Caribbean, Hispanic, Native American, Asian or Pacific Islander, people who identify as transgender and other populations that might not readily access the traditional service delivery/care system. Services provided include outreach at multiple locations such as homeless shelters, youth and faith-based organizations, and on the street; HIV prevention education and advanced risk reduction; client services, including case management and other support services; and program development, allowing MSA staff to receive on-going HIV training, and supporting quality assurance, material development, fundraising and program planning.*

**Agency: Whitney M. Young, Jr. Health Center**

Lark Street & Arbor Dr  
Albany, NY 12207  
(518) 465-4771

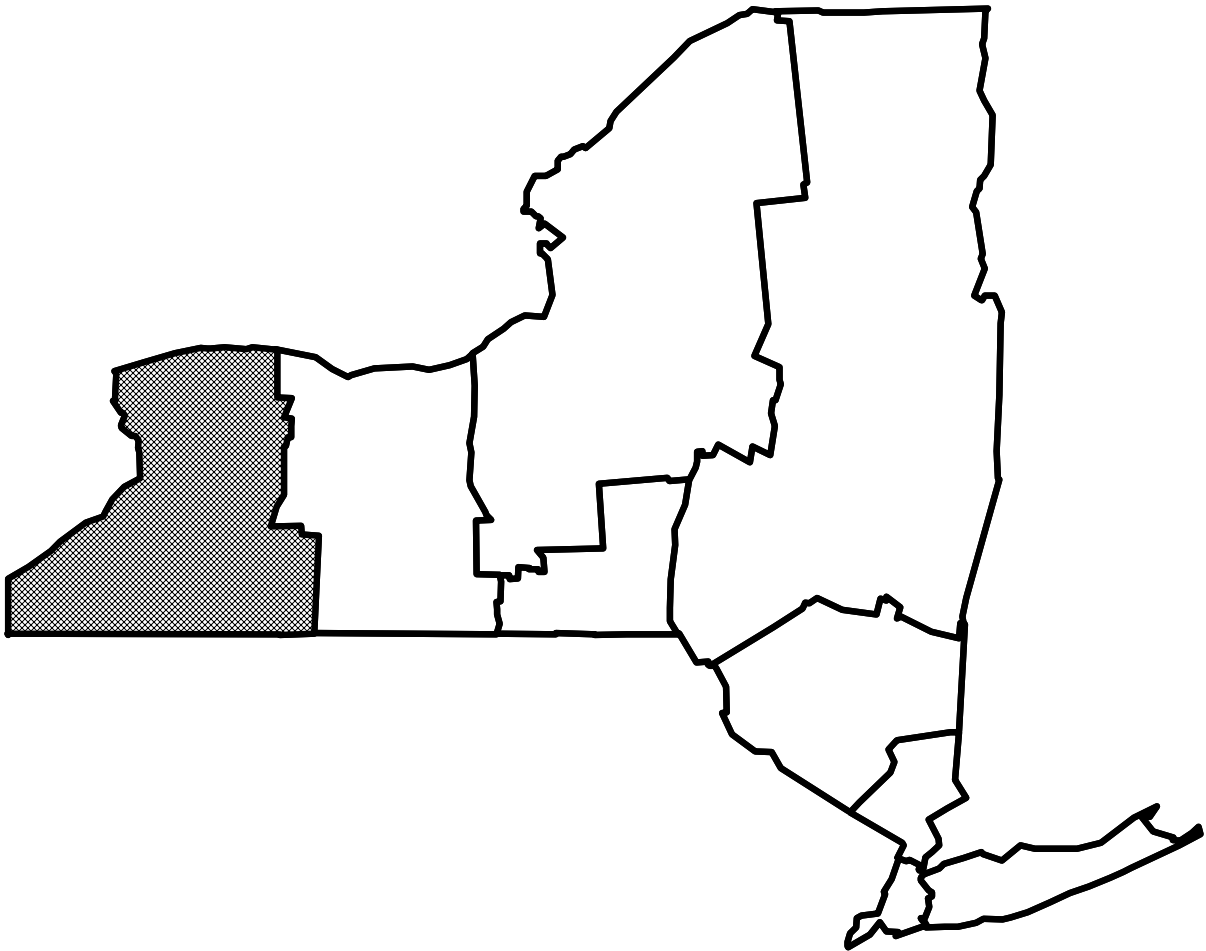

## **Regional Ryan White Title II Care Networks**

*Sixteen regional/neighborhood HIV care networks conduct HIV service planning and coordination. The networks are local associations of health care providers, community-based organizations, affected persons and persons living with HIV/AIDS who have a shared concern for achieving a comprehensive continuum of health and supportive services in a specific geographic area. The networks are responsible for defining the local epidemic and resources; planning and coordinating services; identifying service gaps and developing strategies to address those gaps; and raising public awareness about HIV/AIDS services, treatment and policy.*

## HIV Counseling and Testing

*This activity includes a one-on-one session with a counselor who will help the client to understand their risk for HIV, obtain their consent to collect a specimen (blood or oral fluid) for HIV antibody testing, and deliver the test results with an explanation of its implications. Counseling may include developing a risk reduction plan; assisting the client to develop skills to negotiate safer sex and reduce drug use risk taking behaviors; and referring the client to needed services. For those who have an HIV positive test result, the counselor will assist in linking the client to medical care and discuss a plan to notify partners of their possible exposure.*

## **Medical Care- Designated AIDS Centers**

*Designated AIDS Centers (DACs) are State-certified, hospital-based programs that serve as the center of a continuum of hospital and community-based case management for people with HIV and AIDS. DACs with pediatric and obstetrical departments also provide specialized HIV care to infants, children and pregnant women. HIV-specific care standards developed for and used by DACs are intended to ensure uniformly high quality care for HIV patients.*

## Partner Notification Assistance

*Partner notification assistance is offered to HIV-infected clients to help inform past and present sexual and needle-sharing partners of their exposure to HIV. Services include discussing with infected individuals the different options available for partner notification. Clients are assisted with developing notification skills to self-notify partners, if desired. Public health staff is available through the Partner Assistance Program (PNAP) in all areas outside of New York City and the Contact Notification Assistance Program (CNAP) in NYC to provide partner assistance counseling and referral.*

## Syringe Exchange

*This State funded HIV and hepatitis C prevention initiative offers comprehensive harm reduction services including syringe exchange. Syringe exchange programs (SEPs) also provide outreach; HIV and hepatitis C prevention education; individual and group counseling; mental health services; distribution and demonstration of male and female condoms, dental dams and bleach kits; HIV counseling and testing; and referrals to medical, social services and substance use treatment. The SEPs help participants reduce the harm associated with injection drug use through engagement in behavioral intervention sessions, skills building, recovery readiness activities, and the provision of harm reduction supplies (new syringes, cotton, alcohol pads, and condoms). Used syringes are exchanged for new sterile ones to prevent HIV/hep C transmission in participants who are unable or unwilling to stop injecting and/or enter drug treatment.*

## Provider Resources in the Buffalo Region

## **Community Development Initiative**

*These programs develop and implement strategies designed to educate communities of color about HIV and establish networks to effect a community-based response to the HIV epidemic. The programs closely monitor policies on the national, state, and local level that may impact people who are infected or at risk. Furthermore, this information is shared with policy makers and acts as a source of information for their communities.*

**Agency: GROUP Ministries, Inc.**

1333 Jefferson Ave  
Buffalo, NY 14208  
(716) 883-4367

## **Community Service Programs**

*These programs provide a comprehensive array of HIV/AIDS services, specifically prevention and support services for individuals affected and infected by HIV/AIDS within a clearly defined geographic area. They also provide training and technical assistance to health and human service providers to assist them in the development of their own HIV/AIDS prevention strategies.*

**Agency: AIDS Community Services of Western New York, Inc.**

**Site:** Evergreen Health Services  
206 South Elmwood Ave  
Buffalo, NY 14201  
(716) 847-0212

## **Education and Training for Clinicians**

*To enhance the quality of care offered by community-based HIV care providers, this initiative increases clinical skills through continuous education that focuses on state-of-the-art clinical practice information. In addition to offering continuous education at their sites, the initiative intends to solidify referral relationships between community-based providers (managed care plans, community health centers, substance abuse treatment sites, community hospitals, residential health care facilities and other diagnostic and treatment centers) and tertiary care centers. A directory of clinical education providers in the state is available at [www.hivguidelines.org](http://www.hivguidelines.org).*

**Agency: Erie County Medical Center**

462 Grider St  
Buffalo, NY 14215  
(716) 898-4481

## **Education and Training for Non-Physician Health and Human Service Providers**

*These programs support the effectiveness of non-clinical health and human service providers in delivering HIV/AIDS related services through trainings on HIV policy issues, counseling and testing, community education, outreach, case management, behavioral interventions, viral hepatitis, case management, STD/HIV connection, and harm reduction. A menu of trainings addressing current and emerging HIV issues is offered through a network of training organizations across the state and is available at <http://www.health.state.ny.us/diseases/aids/training/index.htm>.*

**Agency: American Red Cross Greater Buffalo Chapter**

789 Delaware Ave  
Buffalo, NY 14209  
(716) 878-2392

## **Enrollment into HIV Uninsured Care**

*Programs performing targeted outreach and education activities that promote access to health care services in the community. The principle purpose of targeted outreach activities is to identify people with HIV disease so that they may become aware of and may be enrolled in care and treatment services.*

**Agency: Men of Color Health Awareness, Inc.**

**Site: MOCHA Project**

531 Virginia St  
Buffalo, NY 14202  
(716) 852-1142

## Multiple Service Agencies

*Multiple Service Agencies (MSAs) serve communities of color through minority community-based organizations that provide prevention and support services to at-risk and infected persons who are African-American, Caribbean, Hispanic, Native American, Asian or Pacific Islander, people who identify as transgender and other populations that might not readily access the traditional service delivery/care system. Services provided include outreach at multiple locations such as homeless shelters, youth and faith-based organizations, and on the street; HIV prevention education and advanced risk reduction; client services, including case management and other support services; and program development, allowing MSA staff to receive on-going HIV training, and supporting quality assurance, material development, fundraising and program planning.*

**Agency: Alianza Latina, Inc.**

200 South Elmwood Ave  
Buffalo, NY 14201  
(716) 847-0341

**Agency: GROUP Ministries, Inc.**

1333 Jefferson Ave  
Buffalo, NY 14208  
(716) 883-4367

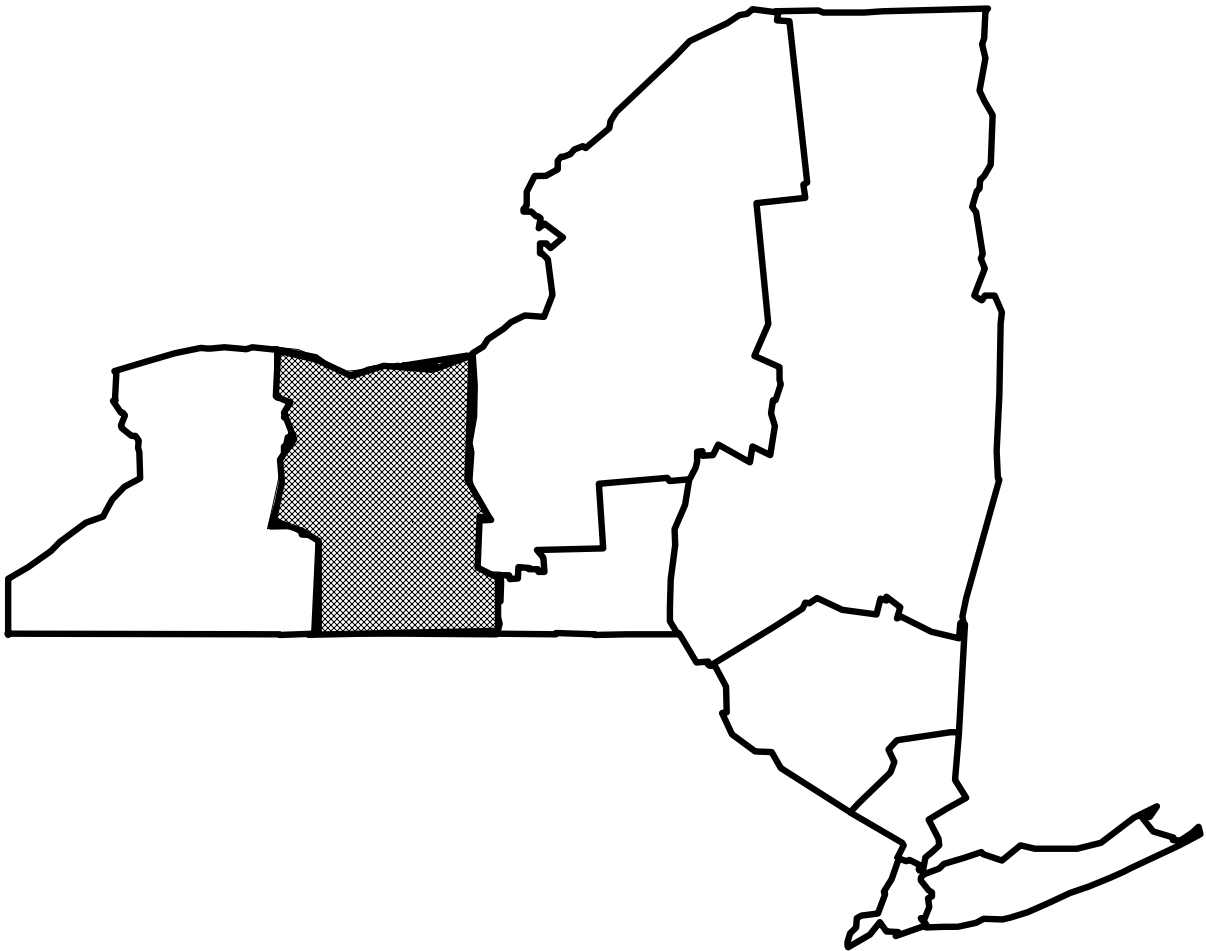

## Regional Ryan White Title II Care Networks

*Sixteen regional/neighborhood HIV care networks conduct HIV service planning and coordination. The networks are local associations of health care providers, community-based organizations, affected persons and persons living with HIV/AIDS who have a shared concern for achieving a comprehensive continuum of health and supportive services in a specific geographic area. The networks are responsible for defining the local epidemic and resources; planning and coordinating services; identifying service gaps and developing strategies to address those gaps; and raising public awareness about HIV/AIDS services, treatment and policy.*

**Agency: AIDS Network of Western New York**

40 Gates Circle Suite 100  
Buffalo, NY 14209  
(716) 882-7840

## Services Provided in Rochester for Consumers

## **AIDS Home Care Programs**

*Responsible for case management/coordination services which address the medical, social, mental health, and environmental needs of the client, including nursing services, home health aide services, medical supplies, equipment and appliances, and other therapeutic and related services which may include but are not limited to physical and occupational therapy, speech pathology, nutritional services, medical social services, personal care services, homemaker services, and housekeeping services.*

**Agency: Schuyler Hospital**

220 Steuben St  
Montour Falls, NY 14865  
(607) 535-7121

## Case Management

*A range of client-centered services that link clients with any and all needed services, such as health care, dental, mental health, substance abuse services, entitlements, legal services, education, transportation, basic living needs, housing, and other supportive services. Case management activities include initial comprehensive assessment of the client's needs and support systems; development of a comprehensive, individualized service plan; and periodic re-evaluation and revision of the plan. May include client-specific advocacy and/or review of utilization of services.*

## **HIV Counseling and Testing**

*This activity includes a one-on-one session with a counselor who will help the client to understand their risk for HIV, obtain their consent to collect a specimen (blood or oral fluid) for HIV antibody testing, and deliver the test results with an explanation of its implications. Counseling may include developing a risk reduction plan; assisting the client to develop skills to negotiate safer sex and reduce drug use risk taking behaviors; and referring the client to needed services. For those who have an HIV positive test result, the counselor will assist in linking the client to medical care and discuss a plan to notify partners of their possible exposure.*

## **Medical Care- Designated AIDS Centers**

*Designated AIDS Centers (DACs) are State-certified, hospital-based programs that serve as the center of a continuum of hospital and community-based case management for people with HIV and AIDS. DACs with pediatric and obstetrical departments also provide specialized HIV care to infants, children and pregnant women. HIV-specific care standards developed for and used by DACs are intended to ensure uniformly high quality care for HIV patients.*

## **Partner Notification Assistance**

*Partner notification assistance is offered to HIV-infected clients to help inform past and present sexual and needle-sharing partners of their exposure to HIV. Services include discussing with infected individuals the different options available for partner notification. Clients are assisted with developing notification skills to self-notify partners, if desired. Public health staff is available through the Partner Assistance Program (PNAP) in all areas outside of New York City and the Contact Notification Assistance Program (CNAP) in NYC to provide partner assistance counseling and referral.*

**Agency: Monroe County Department of Health**

855 West Main St  
Rochester, NY 14611  
(585) 464-5928

## Prevention Education

*Services include HIV/AIDS education and information to individuals, groups, and communities. The goal is to educate and empower people to promote wellness through informed choices, skills building, and behavior change.*

## **Syringe Exchange**

*This State funded HIV and hepatitis C prevention initiative offers comprehensive harm reduction services including syringe exchange. Syringe exchange programs (SEPs) also provide outreach; HIV and hepatitis C prevention education; individual and group counseling; mental health services; distribution and demonstration of male and female condoms, dental dams and bleach kits; HIV counseling and testing; and referrals to medical, social services and substance use treatment. The SEPs help participants reduce the harm associated with injection drug use through engagement in behavioral intervention sessions, skills building, recovery readiness activities, and the provision of harm reduction supplies (new syringes, cotton, alcohol pads, and condoms). Used syringes are exchanged for new sterile ones to prevent HIV/hep C transmission in participants who are unable or unwilling to stop injecting and/or enter drug treatment.*

## Provider Resources in Rochester

## **Community Development Initiative**

*These programs develop and implement strategies designed to educate communities of color about HIV and establish networks to effect a community-based response to the HIV epidemic. The programs closely monitor policies on the national, state, and local level that may impact people who are infected or at risk. Furthermore, this information is shared with policy makers and acts as a source of information for their communities.*

**Agency: Action For A Better Community, Inc.**

550 East Main St  
Rochester, NY 14604  
(585) 325-5116

## **Community Service Programs**

*These programs provide a comprehensive array of HIV/AIDS services, specifically prevention and support services for individuals affected and infected by HIV/AIDS within a clearly defined geographic area. They also provide training and technical assistance to health and human service providers to assist them in the development of their own HIV/AIDS prevention strategies.*

**Agency: AIDS Rochester, Inc.**

1350 University Ave  
Rochester, NY 14607  
(585) 442-2220

## **Education and Training for Clinicians**

*To enhance the quality of care offered by community-based HIV care providers, this initiative increases clinical skills through continuous education that focuses on state-of-the-art clinical practice information. In addition to offering continuous education at their sites, the initiative intends to solidify referral relationships between community-based providers (managed care plans, community health centers, substance abuse treatment sites, community hospitals, residential health care facilities and other diagnostic and treatment centers) and tertiary care centers. A directory of clinical education providers in the state is available at [www.hivguidelines.org](http://www.hivguidelines.org).*

**Agency: University of Rochester**

601 Elmwood Ave  
Rochester, NY 14642  
(585) 275-8418

## Education and Training for Non-Physician Health and Human Service Providers

*These programs support the effectiveness of non-clinical health and human service providers in delivering HIV/AIDS related services through trainings on HIV policy issues, counseling and testing, community education, outreach, case management, behavioral interventions, viral hepatitis, case management, STD/HIV connection, and harm reduction. A menu of trainings addressing current and emerging HIV issues is offered through a network of training organizations across the state and is available at <http://www.health.state.ny.us/diseases/aids/training/index.htm>.*

**Agency: Center for Health and Behavioral Training**

**Site:** Monroe County Department of Health

691 St. Paul St 4th Fl  
Rochester, NY 14605  
(585) 753-5382

## Multiple Service Agencies

*Multiple Service Agencies (MSAs) serve communities of color through minority community-based organizations that provide prevention and support services to at-risk and infected persons who are African-American, Caribbean, Hispanic, Native American, Asian or Pacific Islander, people who identify as transgender and other populations that might not readily access the traditional service delivery/care system. Services provided include outreach at multiple locations such as homeless shelters, youth and faith-based organizations, and on the street; HIV prevention education and advanced risk reduction; client services, including case management and other support services; and program development, allowing MSA staff to receive on-going HIV training, and supporting quality assurance, material development, fundraising and program planning.*

**Agency: Action For A Better Community, Inc.**

550 East Main St  
Rochester, NY 14604  
(585) 325-5116

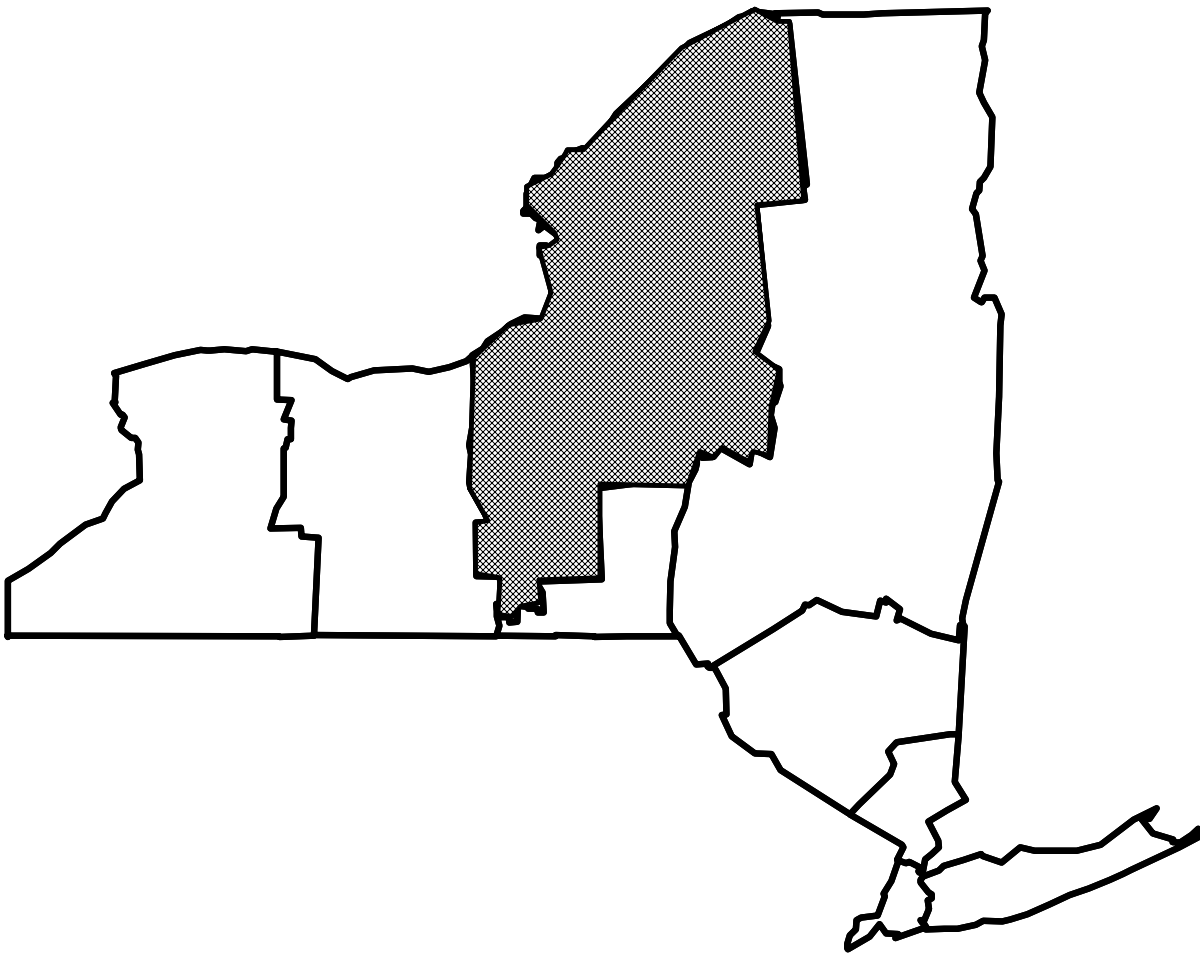

## Regional Ryan White Title II Care Networks

*Sixteen regional/neighborhood HIV care networks conduct HIV service planning and coordination. The networks are local associations of health care providers, community-based organizations, affected persons and persons living with HIV/AIDS who have a shared concern for achieving a comprehensive continuum of health and supportive services in a specific geographic area. The networks are responsible for defining the local epidemic and resources; planning and coordinating services; identifying service gaps and developing strategies to address those gaps; and raising public awareness about HIV/AIDS services, treatment and policy.*

**Agency: Finger Lakes HSA**

## **Counseling - Prevention**

*Interactive, structured small group or individual HIV prevention services that have a skilled facilitator and a set format. Skills building is a major element of this type of service. Individual counseling includes assessment of the client's risk, assisting clients to understand their risk for HIV, developing a risk reduction plan and assisting the client in developing skills to negotiate safer sex and drug use behavior.*

## HIV Counseling and Testing

*This activity includes a one-on-one session with a counselor who will help the client to understand their risk for HIV, obtain their consent to collect a specimen (blood or oral fluid) for HIV antibody testing, and deliver the test results with an explanation of its implications. Counseling may include developing a risk reduction plan; assisting the client to develop skills to negotiate safer sex and reduce drug use risk taking behaviors; and referring the client to needed services. For those who have an HIV positive test result, the counselor will assist in linking the client to medical care and discuss a plan to notify partners of their possible exposure.*

## **Medical Care- Designated AIDS Centers**

*Designated AIDS Centers (DACs) are State-certified, hospital-based programs that serve as the center of a continuum of hospital and community-based case management for people with HIV and AIDS. DACs with pediatric and obstetrical departments also provide specialized HIV care to infants, children and pregnant women. HIV-specific care standards developed for and used by DACs are intended to ensure uniformly high quality care for HIV patients.*

## **Syringe Exchange**

*This State funded HIV and hepatitis C prevention initiative offers comprehensive harm reduction services including syringe exchange. Syringe exchange programs (SEPs) also provide outreach; HIV and hepatitis C prevention education; individual and group counseling; mental health services; distribution and demonstration of male and female condoms, dental dams and bleach kits; HIV counseling and testing; and referrals to medical, social services and substance use treatment. The SEPs help participants reduce the harm associated with injection drug use through engagement in behavioral intervention sessions, skills building, recovery readiness activities, and the provision of harm reduction supplies (new syringes, cotton, alcohol pads, and condoms). Used syringes are exchanged for new sterile ones to prevent HIV/hep C transmission in participants who are unable or unwilling to stop injecting and/or enter drug treatment.*

**Agency: Southern Tier AIDS Program, Inc.**

**Site:** Syringe Exchange Site

501 South Meadow St  
Ithaca, NY 14850

## **Provider Resources in the Central New York Region**

## Community Service Programs

*These programs provide a comprehensive array of HIV/AIDS services, specifically prevention and support services for individuals affected and infected by HIV/AIDS within a clearly defined geographic area. They also provide training and technical assistance to health and human service providers to assist them in the development of their own HIV/AIDS prevention strategies.*

**Agency:** AIDS Community Resources, Inc.

627 West Genesee St  
Syracuse, NY 13204  
(315) 475-2430

## Education and Training for Clinicians

*To enhance the quality of care offered by community-based HIV care providers, this initiative increases clinical skills through continuous education that focuses on state-of-the-art clinical practice information. In addition to offering continuous education at their sites, the initiative intends to solidify referral relationships between community-based providers (managed care plans, community health centers, substance abuse treatment sites, community hospitals, residential health care facilities and other diagnostic and treatment centers) and tertiary care centers. A directory of clinical education providers in the state is available at [www.hivguidelines.org](http://www.hivguidelines.org).*

**Agency:** Central New York Research

**Site:** SUNY Upstate Medical Center

725 East Adams St Suite 304  
Syracuse, NY 13210  
(315) 425-4400

## Education and Training for Non-Physician Health and Human Service Providers

*These programs support the effectiveness of non-clinical health and human service providers in delivering HIV/AIDS related services through trainings on HIV policy issues, counseling and testing, community education, outreach, case management, behavioral interventions, viral hepatitis, case management, STD/HIV connection, and harm reduction. A menu of trainings addressing current and emerging HIV issues is offered through a network of training organizations across the state and is available at <http://www.health.state.ny.us/diseases/aids/training/index.htm>.*

**Agency:** Signature Staff Development Resources

1001 James St  
Syracuse, NY 13203  
(315) 471-0564

## **Multiple Service Agencies**

*Multiple Service Agencies (MSAs) serve communities of color through minority community-based organizations that provide prevention and support services to at-risk and infected persons who are African-American, Caribbean, Hispanic, Native American, Asian or Pacific Islander, people who identify as transgender and other populations that might not readily access the traditional service delivery/care system. Services provided include outreach at multiple locations such as homeless shelters, youth and faith-based organizations, and on the street; HIV prevention education and advanced risk reduction; client services, including case management and other support services; and program development, allowing MSA staff to receive on-going HIV training, and supporting quality assurance, material development, fundraising and program planning.*

**Agency: Syracuse Model Neighborhood Facility, Inc.**

401 South Ave  
Syracuse, NY 13204  
(315) 474-6823

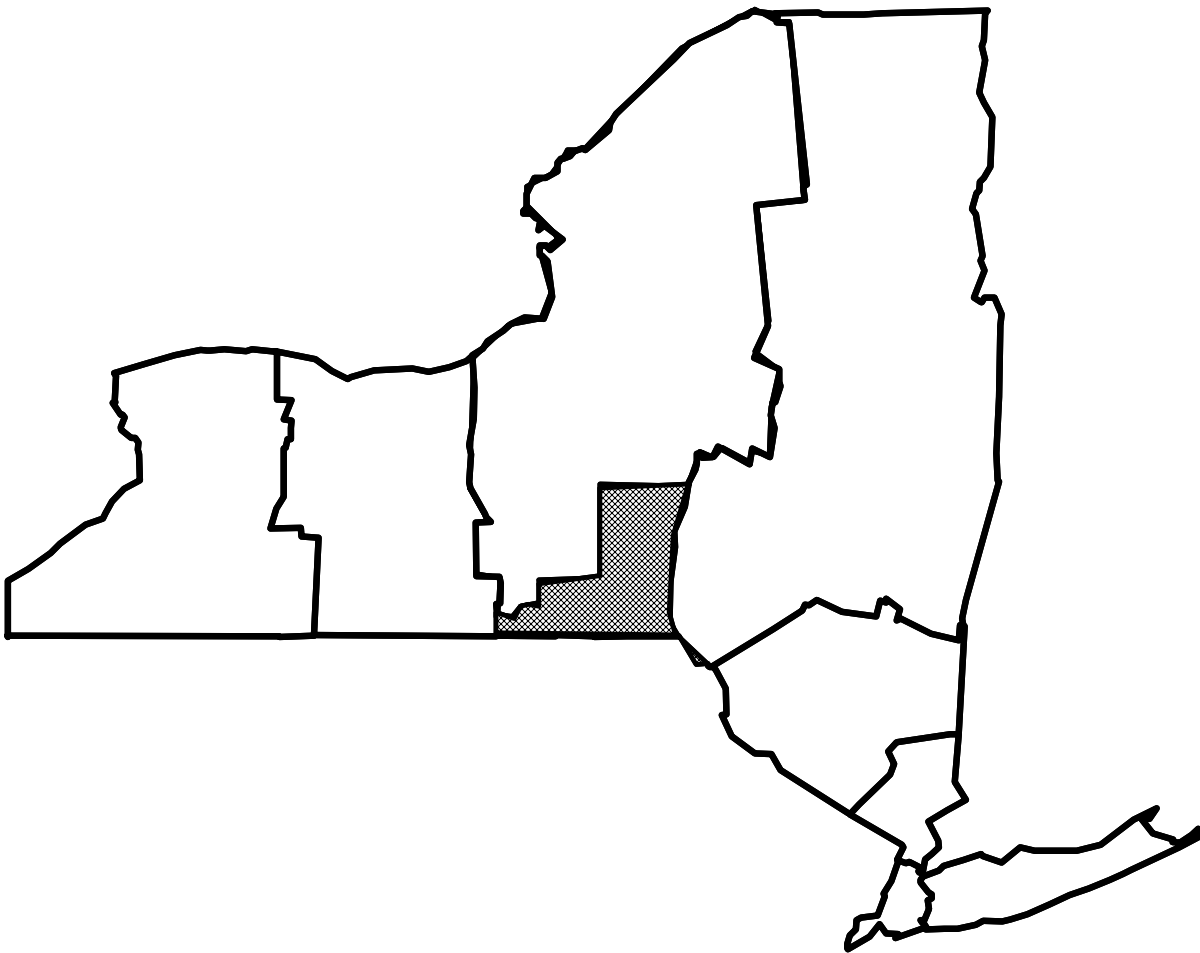

## **Regional Ryan White Title II Care Networks**

*Sixteen regional/neighborhood HIV care networks conduct HIV service planning and coordination. The networks are local associations of health care providers, community-based organizations, affected persons and persons living with HIV/AIDS who have a shared concern for achieving a comprehensive continuum of health and supportive services in a specific geographic area. The networks are responsible for defining the local epidemic and resources; planning and coordinating services; identifying service gaps and developing strategies to address those gaps; and raising public awareness about HIV/AIDS services, treatment and policy.*

**Agency: Central New York Health Systems Agency, Inc.**

5700 Commons Park Dr  
Syracuse, NY 13057  
(315) 472-8099

## Services Provided in the Southern Tier for Consumers

## **AIDS Home Care Programs**

*Responsible for case management/coordination services which address the medical, social, mental health, and environmental needs of the client, including nursing services, home health aide services, medical supplies, equipment and appliances, and other therapeutic and related services which may include but are not limited to physical and occupational therapy, speech pathology, nutritional services, medical social services, personal care services, homemaker services, and housekeeping services.*

**Agency: Ideal Living Center**

508 High Ave  
Endicott, NY 13760  
(607) 786-7400

## **Case Management**

*A range of client-centered services that link clients with any and all needed services, such as health care, dental, mental health, substance abuse services, entitlements, legal services, education, transportation, basic living needs, housing, and other supportive services. Case management activities include initial comprehensive assessment of the client's needs and support systems; development of a comprehensive, individualized service plan; and periodic re-evaluation and revision of the plan. May include client-specific advocacy and/or review of utilization of services.*

## **Counseling - Prevention**

*Interactive, structured small group or individual HIV prevention services that have a skilled facilitator and a set format. Skills building is a major element of this type of service. Individual counseling includes assessment of the client's risk, assisting clients to understand their risk for HIV, developing a risk reduction plan and assisting the client in developing skills to negotiate safer sex and drug use behavior.*

## **HIV Counseling and Testing**

*This activity includes a one-on-one session with a counselor who will help the client to understand their risk for HIV, obtain their consent to collect a specimen (blood or oral fluid) for HIV antibody testing, and deliver the test results with an explanation of its implications. Counseling may include developing a risk reduction plan; assisting the client to develop skills to negotiate safer sex and reduce drug use risk taking behaviors; and referring the client to needed services. For those who have an HIV positive test result, the counselor will assist in linking the client to medical care and discuss a plan to notify partners of their possible exposure.*

## **Medical Care- Designated AIDS Centers**

*Designated AIDS Centers (DACs) are State-certified, hospital-based programs that serve as the center of a continuum of hospital and community-based case management for people with HIV and AIDS. DACs with pediatric and obstetrical departments also provide specialized HIV care to infants, children and pregnant women. HIV-specific care standards developed for and used by DACs are intended to ensure uniformly high quality care for HIV patients.*

## Provider Resources in the Lower Hudson Region

## **Community Development Initiative**

*These programs develop and implement strategies designed to educate communities of color about HIV and establish networks to effect a community-based response to the HIV epidemic. The programs closely monitor policies on the national, state, and local level that may impact people who are infected or at risk. Furthermore, this information is shared with policy makers and acts as a source of information for their communities.*

**Agency: Urban League of Westchester County, Inc.**

61 Mitchell Pl  
White Plains, NY 10601  
(914) 428-6300

## **Community Service Programs**

*These programs provide a comprehensive array of HIV/AIDS services, specifically prevention and support services for individuals affected and infected by HIV/AIDS within a clearly defined geographic area. They also provide training and technical assistance to health and human service providers to assist them in the development of their own HIV/AIDS prevention strategies.*

**Agency: Mid-Hudson Valley AIDS Task Force, Inc.**

40 Saw Mill River Rd  
Hawthorne, NY 10532  
(914) 345-8888

## **Education and Training for Clinicians**

*To enhance the quality of care offered by community-based HIV care providers, this initiative increases clinical skills through continuous education that focuses on state-of-the-art clinical practice information. In addition to offering continuous education at their sites, the initiative intends to solidify referral relationships between community-based providers (managed care plans, community health centers, substance abuse treatment sites, community hospitals, residential health care facilities and other diagnostic and treatment centers) and tertiary care centers. A directory of clinical education providers in the state is available at [www.hivguidelines.org](http://www.hivguidelines.org).*

**Agency: Westchester County Health Care Corporation**

**Site: Westchester Medical Center/Eastview Hall**

Jct of Woods and Peripheral Rds  
Valhalla, NY 10595  
(914) 493-1362

## Enrollment into HIV Uninsured Care

*Programs performing targeted outreach and education activities that promote access to health care services in the community. The principle purpose of targeted outreach activities is to identify people with HIV disease so that they may become aware of and may be enrolled in care and treatment services.*

**Agency: Urban League of Westchester County, Inc.**

10 Fiske Pl  
Mount Vernon, NY 10550  
(914) 667-1010

**Agency: Urban League of Westchester County, Inc.**

61 Mitchell Pl  
White Plains, NY 10601  
(914) 428-6300

## Multiple Service Agencies

*Multiple Service Agencies (MSAs) serve communities of color through minority community-based organizations that provide prevention and support services to at-risk and infected persons who are African-American, Caribbean, Hispanic, Native American, Asian or Pacific Islander, people who identify as transgender and other populations that might not readily access the traditional service delivery/care system. Services provided include outreach at multiple locations such as homeless shelters, youth and faith-based organizations, and on the street; HIV prevention education and advanced risk reduction; client services, including case management and other support services; and program development, allowing MSA staff to receive on-going HIV training, and supporting quality assurance, material development, fundraising and program planning.*

**Agency: The Sharing Community, Inc.**

1 Hudson St  
Yonkers, NY 10701  
(914) 963-2626

## Regional Ryan White Title II Care Networks

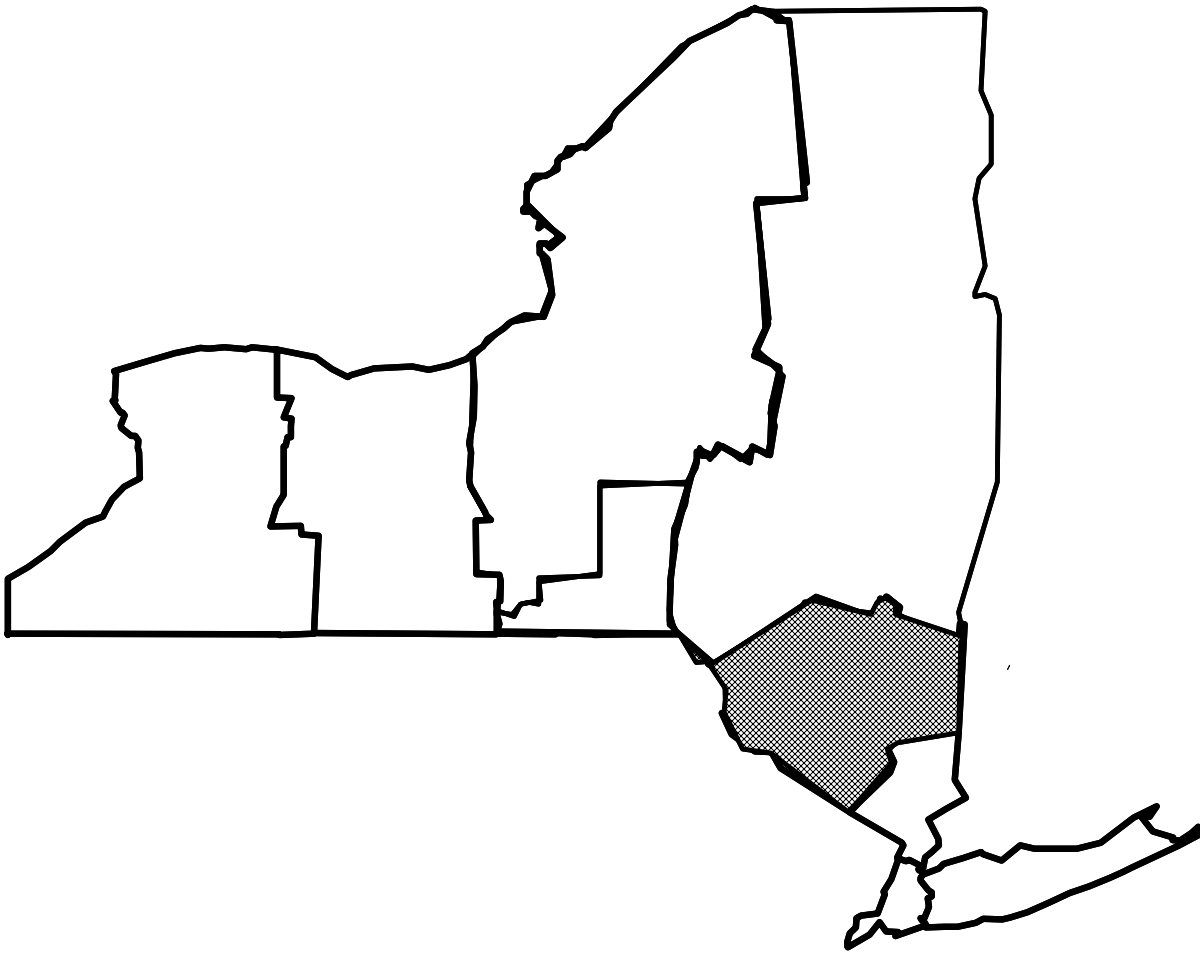

*Sixteen regional/neighborhood HIV care networks conduct HIV service planning and coordination. The networks are local associations of health care providers, community-based organizations, affected persons and persons living with HIV/AIDS who have a shared concern for achieving a comprehensive continuum of health and supportive services in a specific geographic area. The networks are responsible for defining the local epidemic and resources; planning and coordinating services; identifying service gaps and developing strategies to address those gaps; and raising public awareness about HIV/AIDS services, treatment and policy.*

**Agency: Urban League of Westchester County, Inc.**

61 Mitchell Pl  
White Plains, NY 10601  
(914) 428-6300

## Services Provided in Mid Hudson for Consumers

## **AIDS Home Care Programs**

*Responsible for case management/coordination services which address the medical, social, mental health, and environmental needs of the client, including nursing services, home health aide services, medical supplies, equipment and appliances, and other therapeutic and related services which may include but are not limited to physical and occupational therapy, speech pathology, nutritional services, medical social services, personal care services, homemaker services, and housekeeping services.*

**Agency: Fishkill Health Center**

22 Robert R. Kasin Way  
Beacon, NY 12508  
(845) 831-8704

## **AIDS Nursing Facilities**

*Special services are provided including medical services by a physician who has experience in the care and clinical management of persons with AIDS; sub-specialty physician services; nursing services supervised by a registered professional nurse with experience in the care and management of persons with AIDS; substance abuse services; HIV risk/harm reduction education; comprehensive case management; and pastoral care.*

Wappinger Falls, NY 12590  
(914) 297-3793

**Agency: Orange County Residential Health Center**

Quarry Rd  
Goshen, NY 10924  
(914) 291-4740

## Case Management

*A range of client-centered services that link clients with any and all needed services, such as health care, dental, mental health, substance abuse services, entitlements, legal services, education, transportation, basic living needs, housing, and other supportive services. Case management activities include initial comprehensive assessment of the client's needs and support systems; development of a comprehensive, individualized service plan; and periodic re-evaluation and revision of the plan. May include client-specific advocacy and/or review of utilization of services.*

## **Counseling - Prevention**

*Interactive, structured small group or individual HIV prevention services that have a skilled facilitator and a set format. Skills building is a major element of this type of service. Individual counseling includes assessment of the client's risk, assisting clients to understand their risk for HIV, developing a risk reduction plan and assisting the client in developing skills to negotiate safer sex and drug use behavior.*

**Site: CADA of Sullivan County**

17 Hamilton Ave  
Monticello, NY 12701  
(845) 794-8080

## HIV Counseling and Testing

*This activity includes a one-on-one session with a counselor who will help the client to understand their risk for HIV, obtain their consent to collect a specimen (blood or oral fluid) for HIV antibody testing, and deliver the test results with an explanation of its implications. Counseling may include developing a risk reduction plan; assisting the client to develop skills to negotiate safer sex and reduce drug use risk taking behaviors; and referring the client to needed services. For those who have an HIV positive test result, the counselor will assist in linking the client to medical care and discuss a plan to notify partners of their possible exposure.*

## Partner Notification Assistance

*Partner notification assistance is offered to HIV-infected clients to help inform past and present sexual and needle-sharing partners of their exposure to HIV. Services include discussing with infected individuals the different options available for partner notification. Clients are assisted with developing notification skills to self-notify partners, if desired. Public health staff is available through the Partner Assistance Program (PNAP) in all areas outside of New York City and the Contact Notification Assistance Program (CNAP) in NYC to provide partner assistance counseling and referral.*

# Provider Resources in the Mid Hudson Region

## Education and Training for Non-Physician Health and Human Service Providers

*These programs support the effectiveness of non-clinical health and human service providers in delivering HIV/AIDS related services through trainings on HIV policy issues, counseling and testing, community education, outreach, case management, behavioral interventions, viral hepatitis, case management, STD/HIV connection, and harm reduction. A menu of trainings addressing current and emerging HIV issues is offered through a network of training organizations across the state and is available at <http://www.health.state.ny.us/diseases/aids/training/index.htm>.*

### **Agency: AIDS Related Community Services**

40 Saw Mill River Rd  
Hawthorne, NY 10532  
(914) 785-8364  
*Serves Lower and Mid Hudson Regions*

## Enrollment into HIV Uninsured Care

*Programs performing targeted outreach and education activities that promote access to health care services in the community. The principle purpose of targeted outreach activities is to identify people with HIV disease so that they may become aware of and may be enrolled in care and treatment services.*

### **Agency: Rural Opportunities, Inc.**

130 Dolson Ave 3rd Fl  
Middletown, NY 10940

## **Multiple Service Agencies**

*Multiple Service Agencies (MSAs) serve communities of color through minority community-based organizations that provide prevention and support services to at-risk and infected persons who are African-American, Caribbean, Hispanic, Native American, Asian or Pacific Islander, people who identify as transgender and other populations that might not readily access the traditional service delivery/care system. Services provided include outreach at multiple locations such as homeless shelters, youth and faith-based organizations, and on the street; HIV prevention education and advanced risk reduction; client services, including case management and other support services; and program development, allowing MSA staff to receive on-going HIV training, and supporting quality assurance, material development, fundraising and program planning.*

**Agency: The Greater Hudson Valley Family Health Center, Inc.**

3 Washington Ctr  
Newburgh, NY 12550  
(845) 565-3138

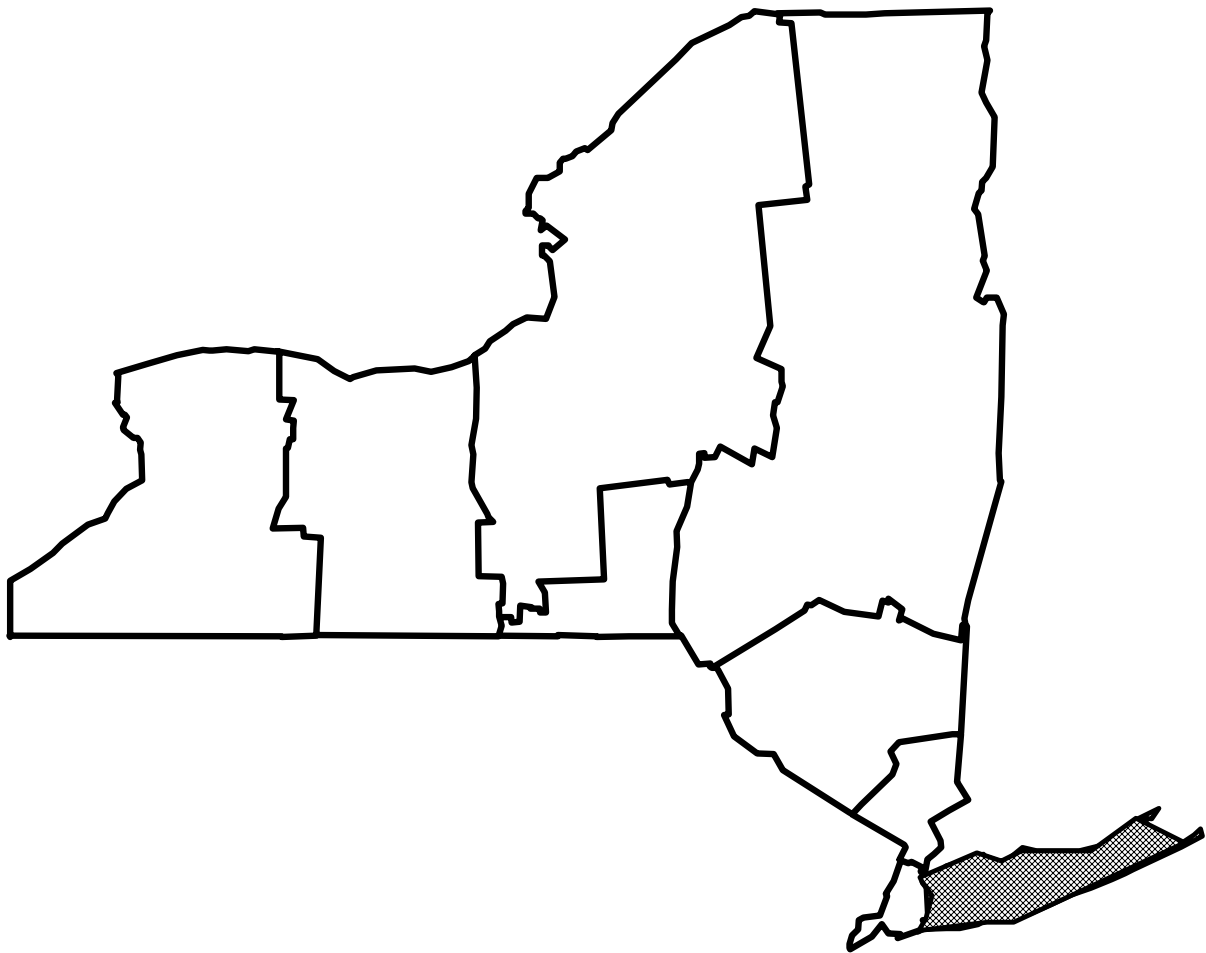

## **Regional Ryan White Title II Care Networks**

*Sixteen regional/neighborhood HIV care networks conduct HIV service planning and coordination. The networks are local associations of health care providers, community-based organizations, affected persons and persons living with HIV/AIDS who have a shared concern for achieving a comprehensive continuum of health and supportive services in a specific geographic area. The networks are responsible for defining the local epidemic and resources; planning and coordinating services; identifying service gaps and developing strategies to address those gaps; and raising public awareness about HIV/AIDS services, treatment and policy.*

**Agency: The Greater Hudson Valley Family Health Center, Inc.**

3 Washington Ctr  
Newburgh, NY 12550  
(845) 563-8058

## **Services Provided in Nassau/Suffolk for Consumers**

## **AIDS Adult Day Health Care Programs**

*Provision of a comprehensive range of services in a community-based, non-institutional setting to individuals living with HIV/AIDS who are poor, homeless, psychiatrically/mentally impaired, chemically dependent, formerly incarcerated and otherwise disenfranchised from the health care system. General medical care, including treatment adherence support, nursing care, rehabilitative services, nutritional services, case management, HIV risk reduction, substance abuse and mental health services are among the services provided.*

**Agency: Catholic Charities**

333 N Main St  
Freeport, NY 11520  
(516) 623-7400

## **AIDS Home Care Programs**

*Responsible for case management/coordination services which address the medical, social, mental health, and environmental needs of the client, including nursing services, home health aide services, medical supplies, equipment and appliances, and other therapeutic and related services which may include but are not limited to physical and occupational therapy, speech pathology, nutritional services, medical social services, personal care services, homemaker services, and housekeeping services.*

## **HIV Counseling and Testing**

*This activity includes a one-on-one session with a counselor who will help the client to understand their risk for HIV, obtain their consent to collect a specimen (blood or oral fluid) for HIV antibody testing, and deliver the test results with an explanation of its implications. Counseling may include developing a risk reduction plan; assisting the client to develop skills to negotiate safer sex and reduce drug use risk taking behaviors; and referring the client to needed services. For those who have an HIV positive test result, the counselor will assist in linking the client to medical care and discuss a plan to notify partners of their possible exposure.*

## **Medical Care- Designated AIDS Centers**

*Designated AIDS Centers (DACs) are State-certified, hospital-based programs that serve as the center of a continuum of hospital and community-based case management for people with HIV and AIDS. DACs with pediatric and obstetrical departments also provide specialized HIV care to infants, children and pregnant women. HIV-specific care standards developed for and used by DACs are intended to ensure uniformly high quality care for HIV patients.*

## **Provider Resources in the Nassau/Suffolk Region**

## **Community Development Initiative**

*These programs develop and implement strategies designed to educate communities of color about HIV and establish networks to effect a community-based response to the HIV epidemic. The programs closely monitor policies on the national, state, and local level that may impact people who are infected or at risk. Furthermore, this information is shared with policy makers and acts as a source of information for their communities.*

**Agency: Long Island Minority AIDS Coalition**

1045 Rte 109 Suite 101  
Lindenhurst, NY 11757  
(631) 225-5500

## **Community Service Programs**

*These programs provide a comprehensive array of HIV/AIDS services, specifically prevention and support services for individuals affected and infected by HIV/AIDS within a clearly defined geographic area. They also provide training and technical assistance to health and human service providers to assist them in the development of their own HIV/AIDS prevention strategies.*

**Agency: Long Island Association for AIDS Care, Inc.**

60 Adams Ave  
Hauppauge, NY 11788  
(631) 385-2451

## **Education and Training for Clinicians**

*To enhance the quality of care offered by community-based HIV care providers, this initiative increases clinical skills through continuous education that focuses on state-of-the-art clinical practice information. In addition to offering continuous education at their sites, the initiative intends to solidify referral relationships between community-based providers (managed care plans, community health centers, substance abuse treatment sites, community hospitals, residential health care facilities and other diagnostic and treatment centers) and tertiary care centers. A directory of clinical education providers in the state is available at [www.hivguidelines.org](http://www.hivguidelines.org).*

**Agency: Meadowbrook Medical Education & Research**

2201 Hempstead Tpke  
East Meadow, NY 11554  
(516) 572-6519

## Education and Training for Non-Physician Health and Human Service Providers

*These programs support the effectiveness of non-clinical health and human service providers in delivering HIV/AIDS related services through trainings on HIV policy issues, counseling and testing, community education, outreach, case management, behavioral interventions, viral hepatitis, case management, STD/HIV connection, and harm reduction. A menu of trainings addressing current and emerging HIV issues is offered through a network of training organizations across the state and is available at <http://www.health.state.ny.us/diseases/aids/training/index.htm>.*

**Agency: Center for Public Health Education**

Benedict House, SUNY 4016 Health Sciences Rd  
Stony Brook, NY 11794  
(631) 444-3245

## Multiple Service Agencies

*Multiple Service Agencies (MSAs) serve communities of color through minority community-based organizations that provide prevention and support services to at-risk and infected persons who are African-American, Caribbean, Hispanic, Native American, Asian or Pacific Islander, people who identify as transgender and other populations that might not readily access the traditional service delivery/care system. Services provided include outreach at multiple locations such as homeless shelters, youth and faith-based organizations, and on the street; HIV prevention education and advanced risk reduction; client services, including case management and other support services; and program development, allowing MSA staff to receive on-going HIV training, and supporting quality assurance, material development, fundraising and program planning.*

**Agency: Circulo de la Hispanidad, Inc.**

26 West Park Ave  
Long Beach, NY 11561  
(516) 889-3869

**Agency: Economic Opportunity Council of Suffolk, Inc.**

475 East Main St Suite 206  
Patchogue, NY 11772  
(631) 289-2124

**Agency: Five Towns Community Center, Inc.**

270 Lawrence Ave  
Lawrence, NY 11559  
(516) 239-6244

## **Regional Ryan White Title II Care Networks**

*Sixteen regional/neighborhood HIV care networks conduct HIV service planning and coordination. The networks are local associations of health care providers, community-based organizations, affected persons and persons living with HIV/AIDS who have a shared concern for achieving a comprehensive continuum of health and supportive services in a specific geographic area. The networks are responsible for defining the local epidemic and resources; planning and coordinating services; identifying service gaps and developing strategies to address those gaps; and raising public awareness about HIV/AIDS services, treatment and policy.*

**Agency: United Way of Long Island, Inc.**

457 Commack Rd  
Deer Park, NY 11729  
(631) 940-3729

## Hotlines and Other Assistance Available by Telephone

### General HIV Information Hotlines

Provide basic information about HIV transmission, prevention, testing procedures & referrals to local providers by county of residence.

NYS AIDS Hotline	(800) 541-2437
SIDA Hotline - Spanish Language AIDS Hotline	(800) 233-7432
NYS HIV/AIDS TTY Information Line	(212) 925-9560
Voice callers - use the New York Relay 711 or 800-421-1220)	
NYC Department of Health HIV/AIDS Hotline	(800) TALKHIV (Bilingual)

# County Partner Notification Programs

Partner notification assistance is offered to HIV-infected clients to help inform past and present sexual and needle-sharing partners of their exposure to HIV. Services include discussing with infected individuals the different options available for partner notification. Clients are assisted with developing notification skills to self-notify partners, if desired. Public health staff is available through the Partner Assistance Program (PNAP) in all areas outside of New York City and the Contact Notification Assistance Program (CNAP) in NYC to provide partner assistance counseling and referral.

# Glossary

## Consumer Services

---

### **AIDS Adult Day Health Care Programs**

Provision of a comprehensive range of services in a community-based, non-institutional setting to individuals living with HIV/AIDS who are poor, homeless, psychiatrically/mentally impaired, chemically dependent, formerly incarcerated and otherwise disenfranchised from the health care system. General medical care, including treatment adherence support, nursing care, rehabilitative services, nutritional services, case management, HIV risk reduction, substance abuse and mental health services are among the services provided.

### **AIDS Home Care Programs**

Responsible for case management/coordination services which address the medical, social, mental health, and environmental needs of the client, including nursing services, home health aide services, medical supplies, equipment and appliances, and other therapeutic and related services which may include but are not limited to physical and occupational therapy, speech pathology, nutritional services, medical social services, personal care services, homemaker services, and housekeeping services.

### **AIDS Nursing Facilities**

Special services are provided including medical services by a physician who has experience in the care and clinical management of persons with AIDS; sub-specialty physician services; nursing services supervised by a registered professional nurse with experience in the care and management of persons with AIDS; substance abuse services; HIV risk/harm reduction education; comprehensive case management; and pastoral care.

### **Case Management**

A range of client-centered services that link clients with any and all needed services, such as health care, dental, mental health, substance abuse services, entitlements, legal services, education, transportation, basic living needs, housing, and other supportive services. Case management activities include initial comprehensive assessment of the client's needs and support systems; development of a comprehensive, individualized service plan; and periodic re-evaluation and revision of the plan. May include client-specific advocacy and/or review of utilization of services.

### **Case Management- COBRA Community Follow-Up Program**

Provides family-centered, intensive case management services to Medicaid-eligible HIV infected persons and some high-risk individuals. The program is designed for persons who have comprehensive service needs, require frequent contact with care providers, and have difficulty accessing medical care and supportive services.

### **Child Care/Respite**

Includes day care services for HIV-infected children, respite services designed to relieve primary caregivers and families, and childcare to enable parents to obtain needed care/services.

### **Counseling - Prevention**

Interactive, structured small group or individual HIV prevention services that have a skilled facilitator and a set format. Skills building is a major element of this type of service. Individual counseling includes assessment of the client's risk, assisting clients to understand their risk for HIV, developing a risk reduction plan and assisting the client in developing skills to negotiate safer sex and drug use behavior.

### **Counseling - Substance Use/Individual**

A trained individual (staff, peer, volunteer or professional) provides counseling for active or recovering substance users.

### **Counseling - Supportive/Individual**

A trained individual (staff, peer, volunteer or professional) provides counseling to individuals in a private session.

### **HIV Counseling and Testing**

This activity includes a one-on-one session with a counselor who will help the client to understand their risk for HIV, obtain their consent to collect a specimen (blood or oral fluid) for HIV antibody testing, and deliver the test results with an explanation of its implications. Counseling may include developing a risk reduction plan; assisting the client to develop skills to negotiate safer sex and reduce drug use risk taking behaviors; and referring the client to needed services. For those who have an HIV positive test result, the counselor will assist in linking the client to medical care and discuss a plan to notify partners of their possible exposure.

### **Legal Services - General**

Services provided to low income, HIV infected people and their families on a variety of legal matters including wills, housing, entitlements, discrimination, and more.

### **Legal Services for Families in Transition**

Legal services for HIV-positive parents, family members, and new caregivers include assistance with guardianship; stand-by guardianship; entitlements; wills; living wills; and health care proxies; as well as comprehensive family legal services, such as legal counsel and advice in discrimination, domestic violence, housing, immigration, and other issues.

### **Medical Care Coordination**

Services to help coordinate medical services and treatment.

### **Medical Care- Designated AIDS Centers**

Designated AIDS Centers (DACs) are State-certified, hospital-based programs that serve as the center of a continuum of hospital and community-based case management for people with HIV and AIDS. DACs with pediatric and obstetrical departments also provide specialized HIV care to infants, children and pregnant women. HIV-specific care standards developed for and used by DACs are intended to ensure uniformly high quality care for HIV patients.

### **Medical Care- General**

Provision of professional diagnostic and therapeutic services rendered by a physician, physician's assistant, clinical nurse specialist, nurse practitioner or other licensed practitioner in an outpatient, community-based or office based setting. Services may include diagnostic testing, early intervention, preventive care and screening, medical examination, medical history taking, diagnosis and treatment of physical conditions, prophylaxis and treatment of opportunistic infections, prescribing and managing medications, education and counseling on health issues, and other related services.

### **Medical Care- Physicians Accepting Medicaid**

Services include HIV primary care, HIV pre-test counseling and testing; annual comprehensive exams; drug and immunotherapy services; and CD4 monitoring.

## **Medication Support/Adherence Programs**

Programs help individuals on highly active antiretroviral therapy (HAART) to stay on their medications and take them as prescribed.

## **Mental Health**

Mental health services are designed to identify and assess changes in a client's mental health status and to provide services to help individuals cope with the psychological effects of living with HIV. Services include psychiatric/psychological assessment; psychological and psychiatric diagnosis, treatment and counseling; and are provided by mental health professionals who are licensed/certified in New York State.

## **Nutrition/Meals**

Home-delivered and congregate meals; nutritional counseling/education.

## **Partner Notification Assistance**

Partner notification assistance is offered to HIV-infected clients to help inform past and present sexual and needle-sharing partners of their exposure to HIV. Services include discussing with infected individuals the different options available for partner notification. Clients are assisted with developing notification skills to self-notify partners, if desired. Public health staff is available through the Partner Assistance Program (PNAP) in all areas outside of New York City and the Contact Notification Assistance Program (CNAP) in NYC to provide partner assistance counseling and referral.

## **Prenatal Care Information and Referral**

Provides information and navigates clients to prenatal care services.

## **Prevention Education**

Services include HIV/AIDS education and information to individuals, groups, and communities. The goal is to educate and empower people to promote wellness through informed choices, skills building, and behavior change.

## **Social Support for Families in Transition**

Supportive services to help families cope with the emotional and physical needs of family members living with HIV/AIDS. Services include support groups for parents, children, adolescents, and new caregivers; assistance with disclosure issues; assistance in identifying new caregivers; social activities that build relationships and support families; assistance to children in dealing with loss; grief and bereavement services; education for family members and new caregivers; and transitional services designed to stabilize the new family after the death of a parent.

## **Support Groups**

A regularly scheduled meeting of clients or volunteers facilitated by an appropriately trained individual, for the purpose of group education and/or support. Support groups provide a setting for peers to share their issues and concerns with each other as well as an avenue for developing problem solving skills.

## **Supportive Housing**

A range of services provided within scattered site, congregate, and single room occupancy housing programs. Services include: emergency rental and utility assistance; rental enhancements; housing placement assistance and referral; independent living skills assistance; case management; transportation; respite and child care; nutrition; partner/spousal notification assistance; supportive counseling; crisis intervention; client advocacy; mental health services; substance abuse counseling; and vocational education.

**Syringe Exchange**

This State funded HIV and hepatitis C prevention initiative offers comprehensive harm reduction services including syringe exchange. Syringe exchange programs (SEPs) also provide outreach; HIV and hepatitis C prevention education; individual and group counseling; mental health services; distribution and demonstration of male and female condoms, dental dams and bleach kits; HIV counseling and testing; and referrals to medical, social services and substance use treatment. The SEPs help participants reduce the harm associated with injection drug use through engagement in behavioral intervention sessions, skills building, recovery readiness activities, and the provision of harm reduction supplies (new syringes, cotton, alcohol pads, and condoms). Used syringes are exchanged for new sterile ones to prevent HIV/hep C transmission in participants who are unable or unwilling to stop injecting and/or enter drug treatment.

**Transitional Planning for Ex-Offenders**

A multi-step, short term service which helps to ensure a continuum of care for HIV-infected pre-release inmates who have disclosed their HIV status within the correctional facility.

**Translation/Interpretation**

Provides medical interpretation and translation for HIV positive and high risk individuals.

**Transportation**

Transportation services include car, taxi, or bus service; subway token disbursement; ticket reimbursement; and van ambulette transport.

### **Community Development Initiative**

These programs develop and implement strategies designed to educate communities of color about HIV and establish networks to effect a community-based response to the HIV epidemic. The programs closely monitor policies on the national, state, and local level that may impact people who are infected or at risk. Furthermore, this information is shared with policy makers and acts as a source of information for their communities.

### **Community Service Programs**

These programs provide a comprehensive array of HIV/AIDS services, specifically prevention and support services for individuals affected and infected by HIV/AIDS within a clearly defined geographic area. They also provide training and technical assistance to health and human service providers to assist them in the development of their own HIV/AIDS prevention strategies.

### **Education and Training for Clinicians**

To enhance the quality of care offered by community-based HIV care providers, this initiative increases clinical skills through continuous education that focuses on state-of-the-art clinical practice information. In addition to offering continuous education at their sites, the initiative intends to solidify referral relationships between community-based providers (managed care plans, community health centers, substance abuse treatment sites, community hospitals, residential health care facilities and other diagnostic and treatment centers) and tertiary care centers. A directory of clinical education providers in the state is available at [www.hivguidelines.org](http://www.hivguidelines.org).

### **Education and Training for Non-Physician Health and Human Service Providers**

These programs support the effectiveness of non-clinical health and human service providers in delivering HIV/AIDS related services through trainings on HIV policy issues, counseling and testing, community education, outreach, case management, behavioral interventions, viral hepatitis, case management, STD/HIV connection, and harm reduction. A menu of trainings addressing current and emerging HIV issues is offered through a network of training organizations across the state and is available at <http://www.health.state.ny.us/diseases/aids/training/index.htm>.

### **Enrollment into HIV Uninsured Care**

Programs performing targeted outreach and education activities that promote access to health care services in the community. The principle purpose of targeted outreach activities is to identify people with HIV disease so that they may become aware of and may be enrolled in care and treatment services.

### **Multiple Service Agencies**

Multiple Service Agencies (MSAs) serve communities of color through minority community-based organizations that provide prevention and support services to at-risk and infected persons who are African-American, Caribbean, Hispanic, Native American, Asian or Pacific Islander, people who identify as transgender and other populations that might not readily access the traditional service delivery/care system. Services provided include outreach at multiple locations such as homeless shelters, youth and faith-based organizations, and on the street; HIV prevention education and advanced risk reduction; client services, including case management and other support services; and program development, allowing MSA staff to receive on-going HIV training, and supporting quality assurance, material development, fundraising and program planning.

## **Regional Ryan White Title II Care Networks**

Sixteen regional/neighborhood HIV care networks conduct HIV service planning and coordination. The networks are local associations of health care providers, community-based organizations, affected persons and persons living with HIV/AIDS who have a shared concern for achieving a comprehensive continuum of health and supportive services in a specific geographic area. The networks are responsible for defining the local epidemic and resources; planning and coordinating services; identifying service gaps and developing strategies to address those gaps; and raising public awareness about HIV/AIDS services, treatment and policy.
